Government Awards at Mt. Louis. Colonei F. T. fi deer, Cheef Commission of Sub-sistence, has made the following awards of con-tractor bills openre by him Saturday, February a 1960-MARKETS, SATUDAT, FER. 25, 1856. The general markets have been devoid of inter-est and activity throughout the week which has just closed, though it is expected, asnavigation from this point has been resumed, that there will be an improvement in business generally, and that the duliness and and depression which has prevail-ed for some weeks past, will be aucceded by buoy-ancy and activity. The most serious drawback to trade just now, is the weak and unsetted con-dition of the gold market, which has a tendency to chuck speculation, and restrict the demand for pro-duce of all kinds to supplying the immediate wants of consumers.
