Finday, March 3, 1953.

SATURDAY, March 4, 1985.

The Allegheny river, atthough Ault of neavy floating are, is doubtless oven all the way up, and navigation between here and Oll Cily will at once be retuned. Within the nixt few days, therefore, large arrivals of crude may be expected, and, for a time, a least, we expect to set bit oil business as lively and buoyant as it was about this time one year ago. The market for crude at this time is, to use a cummon phrase, "played out," as there is not, nor has there been for some weeks past, a wingle barrel here, and this being the case, transactions, as a matter of course, were out of the question. For refined, in bond, there is no demand whatever, and in the absence of siles we omit quotations. Free oil is moderately active, and we note regular sales at 9 (8) rents. Naptha is in light supply, and quue, but firm at 23625 tents, in bond, and 21945 cents five. Residqum is in good demand, and meets with a ready sale at \$5,2568,50 per bbbiseme holders asking \$8,7569,60. ome holders asking \$8,75@9,00.
