with the subscription bocks of the proposed Li-brary Hall company. The whole comminity were to see the necessity of a new public hall, and if it was to be had in connection with a public library and reading room such as exist in other cities. The plan is a good one. Dut what are the committees doing? The writer, for one, is willing to emberihe something and is waiting to see them at work. If there is any one thing we need mory than apother; it is a suitable hall for lectures, écnéeria, aid other public entertain-ments and meetings. It is a shame that the po-ple of Pittaburgh, with all their wealth and ean-terprise, are obliged to put up with the dingy af-fairs in which our concerts are given. Some of these nights a hundred or two of us will be roast-ed or creabed to death in the vain attempt to creape from one or the other of them. Is not this matter to be pushed? If not, the public will be greatly disappointed in theft or-pectations from the gentlemen who haro it in charge. Musice. No. 19 IBWIN STREET, PITTSBURGH. FITTSBURGH RAFERENCES. PITTSBURGH RAFERENCES.
