Lieut, Gent Walle Hampton, Commanding Commercial Walle Confederate States of America siry Forces of the Confederate States of America-General:—It is officially reported to me that of Control:—It is officially reported to me that our ferraging parties are nunriered after their capture; and labeled "death to all foragors"—one instance of a Lieutenam and seven men near Chesterville, and another of twenty near a ravine, eighty rods from the main road at three miles from Feasterville. I have ordered a similar number of prisoners in our hands to be disposed of in like manner. I hold about one thousand prisoners, captured in various ways, and can stand it as long as you; but I hardly think these nurders are committed with your knowledge. I would suggest that you give notice to the people at large, that every life taken by them simply results in the death of one of your Confederates.

PRILADELPHIA, March 11.-The Bulletin ha the following dispitch:

Wondington, March 11.—A letter dated Wilmington, March 6th, was received here to-day, n which it is stated in positive terms that a scou from Gen. Sherman's army had reached Terry's endonarters, who left our forces in the occup

headquarters, who left our forces in the occupa-tion of Charew, S. C., the terminus of the Una-rew and Darlington road, and but a very few miles from North Carolina. Nothing but cavalry shrmibes had taken place. The army had rested for some days, and found very fair sub-sistence along the route. The advance into North Carolina was a certainty. Washington March 11.—Thermmors of disaster to Schofield originated in a boastful dispatch from Bragg, published in a Richmond paper, claiming that he had checked him. No importance whatever is attached to the attendant, and it is believed that both Schofield and Sherman are all right.

Vice President Johnson was in the capitol today, but did not preside in the Senate. His health is much better.

Second Dispatch.—The rumors of a battle by Schofield in North Carolina, attracts increased attention, but nothing can be ascertained from any reliable source. They are evidently founded on the doubtful Bragg dispatch in the Richmond papers.

There is no reliable news from Sherman yet. Geod news has been received from Sheridan. The remnants of Early's forces have field to the mountains. The rubel army is believed to be luoken up.

WASHINGTON, March 13.-The Richmond Dis. patch of Friday, contains the following dispatch from Gen. Lee, giving the particulars of a battle near Kingston, N. C., between Bragg and the Union forces which moved from Newbern to meet Sherman, in the direction of Goldsboro

Headquarthes, &c., }
To Gen. J. C. Breekinridge, Escretary of War:
Gen. Bragg reports that he attacked the enemy yesterday, four miles in front of Kingston, and drove him from his position. He disputed the ground obstinately, and took up a new linathree inflice from his first one. We captured three leeses of artillery, and 1,500 prisoners. The number of the enemy killed and wounded, who were left on the field, is large. Ours is comparatively small. The troops behaved most hand-somely, and Maj. Gen. Hill and Hoke exhibited their usual zeal and energy.

R. E. Lu. Kingston, near which the fight occurred is situated on the direct route from Goldsboro to Newbern, is about twenty miles cast of Goldboro, and about thirty miles from Newbern. It if supplied that this force of the enemy was advanting from Newbern against Goldsboro for the purpose of cutting the railroad at that point. It is not likely after this repuise that the enemy will sitempt to advance, and it is likely that we shall next bear of them falling back on Newbern, as changing their course to some other point of the compars.

New York, March 12 .- In the debate on the bill to arm negroes, Mr. Hunter said that as he had been instructed by the Virginia Legislature to vote against his conviction, it was proper he should give his opinions. When we left the old government he thought we had gotten, rid forinto a new confederacy where the agitation of the slavery question, which had become intolerable under the old Union, was to have no place. To his surprise be finds this government assumes the power to arm slaves, which involves also the power of emancipation. To the agitation of the question of the assumption of this power he dated the origin of the rison which now overspreads the people. They know that if our liberties were to be achieved, it was to be done by the hearts and hands of free men. It also to jured as abroad. It was regarded as a confession of despair and the humbourent of the ground upon which we stricted from the old Union. We had insisted that Congress had no right to interfere with sla-

strifted from the old Union. We had insisted that Congress had no right to interfere with slaving. We shad contended that wherever two races were thrown together, one must be master and the other slave, and we vindleated ourselves secinst the accusations of abolitionists by asserting that slavery was the best and happiest condition of the negroes. This proposition admits the right of the contral government to put the slaves into the militas, and so emancipate so many as shall be placed in the military service, and it is a clear claim of the ocultral government to emancional slaves if we are right in passing this measure, we were wrong in denying to the old Government the right to interfere with the institution of slavery, and to emancipate alarce. Beddee, if we vere wrong in denying to the old Government the right to interface with the institution of alavery, and to emancipate alarce. Besides, if we offer slaves their freedom, we confess that we were insincero in asserting that alarcery was the left state for negroes. He had been sincere, in declaring that the Central Government had no power over the institution of alavery, and that the dofn would be no boon to the negro. He believed that arming and emancipating alarce

be free. If we could make them soldiers we certif make them officers perhaps to command white men.

Bit. Graham opposed the bill. He considered the adoption of the measure as the actian abandonment of the principles of the contest, and protested against the right of the Virgidia Legislature to instruct Scantors after the mature deliberation of the Sadate.

Mr. Semmers advocated the bill as a secessity, and said it was urged by Gen Let, and the obnequences which would follow would not be so bad as represented.

The Enguirer, commenting on the passage of the negro endistrates bill, ways: The influence upon alartry is more of apprehension than reality, for alartry is dead in Virginia. It is no surrender of the principle of the contest to emancipate visives, if we think proper to do so for defense. The Yankees may be fighting to emancipate negroes but we are not fighting to emancipate negroes but we are not fighting to preserve the great principle of self-government. This, Examiner says: Gen. Lee must be held responsible for the enforcement of the laws. Henry A. Wise, in a recent speech, said: Gen. Sectiv's plan at the beginning of the war was for out invasion and destruction, and its fast tending to that consummation. We are cut into fragments of territory, divided by this Missishipi and in every section driven into close intercourse and forced to self-ruilance, apart from the rest of the world.
