But when it is clearly shown and a soldier enlisted, willfully concealing a fashing, which he knew to cakes at the time faults, should upon which he is subsequency disharged, then, all instalments of bounts paid to the defented.

The Draft. in those districts in which no efforts are being made to procure volunteers, the presumption is strong that the revolutions of "the whoel of lestiny will soon begin. Amongst the districts destiny" will soon begin. Amongst the districts most active in procuring recruits is the First Ward. Allegheny. A bounty of \$500 is offered by the Ward Committee, which, added to the hovernment bounty of \$100 makes \$500 for one or a roll anticers. The recruiting office is at 'all-deciman Dyer's office, corner of Lescock and Federal strets, where one of the Committee may at any time be found. If the draft takes piace before the quants is filled, no bounty can be given, and each enrolled man rans his own risk. We would addiss all young men who can so arrange their affairs, to immediately volunteer for the last pear of the wor. Tacy, may thus save the last pear of the wor. Tacy may thus save that this is about the close of the sirungsfe. New troop may never see a battle.

Caught Up.

Caught Up. It is an old saying that "when wine is in, th wit is out." We believe it. On last Saturday an itinerant peddler made his appear an internit peaned many an appearance a Johnstown, and after disposing of a few of hi wares, proceeded to expend the proceeds b getting prodigiously drunk. White in this glor ous condition, be took it upon himself to put ous condition, be took it upon himself to put liely beast that he was a bounty-jumper—that had enlisted in the army three several times, an three times had deserted. His words were take poly of by some of the provos: guard stationed there, who immediately areased him as a deserter. The same ovenligh, he was forwarded to Provest Marshal headquarters, to undergo count martial, where he will doubtless cardiate los and paisfully on the impropriety of putting a enemy is his inputh to steal away his brains.

The Lecture Last Evening. inder the auspices of the Young Men's favored with one of the most eloquent and spirit-stirring lectures that we ever heard, by Theodore Tilton of the New York Indepen The odore Tilton of the New York Independent. In the great march of opinion which distinguishes the present day, Mr. Tilton is fairly in the front; and we are mistaken if his andifors of last evening don't find themselves a day's march ahead of where they were before they heard him. It was the cloquence of an caractast soul attering great truths; and clothing them is elegant and fitting language.

It was amounced that Mr. Gough will lecture for three evenings; commencing; if we remember correctly, on the 8th of April.

The Peake Pamily Coming. The Peake Family, it is annou shortly appear in cur city. At one time this troupe was divided into two companies, per forming independently, and known distinctively as the "Peake Ramily Vocalists, Harpists and as, the "Feake Kamily Vocalists, Harpists and Lancashire Bell-Ringers," and the "Campan-alogians, or Swiss Bell-Ringers," The two are now, however, co. Mind, and form a mammeth troupe. Their performances are novel and striking, and the merry chimes of their sliver bells are full of entrancing melody. The vocal and instrumental selections are principally optable. Our ammement-seekers will doubtless be on the tip-toe of expectation for the arrival of this popular troupe. City Mortalty.

Assault and Battery.

Alderman Butler had abcaring in the case mentioned ayor wo ago, in which John and Joremiah Sullivan were charged with committing assault and battery on the prosecutor Patrick Sands. Sands, it will be remembered grassly inculted the sister of defendants, and other lady, who was wither, while walking on the pavement. The two followed aim, and pummelled him, for which this, action was irrought. Sands is held in \$100 for appearance at Court. IT Can BE DONE. - Drafted men can put in e It dix no Dors.—Drafted men can put in en-rolled men as substitutes, now instanding it has been widely given out by newspapers that such is not the case. A careful perusal of the act of Congress of Fibruary 38th, 1894, establishes thyricat clearly that a conscript, can be, substi-tuted by in enrolled mint. A knowledge of this fact at the present time is bighly important.

RENOVATED STREETS.—Such showers as yestenday are a blessing to our streets, which have now put on a new attire and look quite attractive. An army of "scrapers" could never accomplish in one day the work of renovation which the "gentle showers of heaven" did yesterday "upon the place beneath."
