town, but "prospecting parties" are to be known, but "prospecting parties" are on the ilert for every shadow of an indication. Messra. Currert, M'Cune, and Poole, Americanvenidents of Mrxico, have come into possession of some valuable springs, and Mr. William H. Arnour, representing a annuler of New York capitalists, has recently left for the United States with im-jortant tille papers relative to pertoneum, almost innder the very "Halls of the Mosterannas." Mr. Covert leaves. Vera Cruz, by the Reglish sceamer for Havana and New York, with equily interesting information, and representing some of the most valuable discoveries yet made in Mestico. The oil is clear and of good quality, and is accessible by inavigable streams. Boring is soon to be commenced on a large scale, for which any amount, of capitat it intreadmess. The exclusive right to reflue this oil, which as stated in former correspondence, has been granted to some of the above named parties. A note from the rooms of the American Board stars that the treasury is becoming scilourly embarrassed. One half of the current financial year is good; hut, inside of receiving con-bial of the 5600,000, veted at Worzester, they have received less than one-bind of the same (\$160, 564). Indeed, the dometions and logacies have advanced only \$9,465 beyond these of last year. On the other hand, the expenditures are uniform and imperative. Remittances smust be send to the missions, if pessible, even though the income milesions, if pos sible, even though the i ereived is wholly imprilicient.

The presson Agassiz is soon to sail for Boul America on a scientific exploring expedition to test his glacial theory. He will be accompanie by clpth existiants, and the entire expense of the trip-some \$20,000-will be locue by Ma The exclusive right to reflue this oil, which as stated in former correspondence, has been granted to some of the above named parties, makes their memopoly of almost inconcelvable value, particularly when it is considered that they have not only the outside world as a market, but some seven millions of Mexican population is supply—a local trade which is every day in-creasing, and which can defy import tion abroad. the trip-some \$20,000 will be berne by Na-thanial Thayer, of Boston. Prof. Agassis ex-pects to bring home with bin the largest collec-tion of tropical specimena which has ever been gathered. The Cambridge Minesum, which they will carich, has received, in voluniary contribu-tions during the last year, 30,000, and \$34,000 has been expended mom it in the same time. In the three States of Illinois, Indiana and Ohlo, fuller erops will be plasted then perhaps during any of the past three years. It is true that larges numbers of the young and able bodied men have enlisted as soldiers, bgf.Abci places are taken by others, seurning of growing up, and by Mondhers

A Litrran from the City of Mexico, dated A Litrran from the City of Mexico, dated Ist instant, says: ""Pierro Scote, who sarited two weeks ago, from Hisrana, is reported in the newspapers as having on hand a gigentle Secseh limingration scheme, but of what particular na-ture is not generally understood, perhaps it is an offshoot of the csploded Gwin atfair. "A rugor than issual pumber of Americas, iofail and dielogal, are in Mexico just now." Major Calhoom Bonham, of the schel army, and for-merly United States Disiriet Attorney in California, i, has teen here for sereral weeks, confundo to his room by Ilines, as the Iurbide Hotel, Capt. Beamrgard, brother of the General, is in Sonor aharing pased, through this, city some, weeks aince, on his way thither. Hours and universition in considerable quantihera is urning or growing up, and by South funder, who are flooding the Southera coun figeer, who are floodin f lilitois and Indiana.

Accounts from all junc of Europe speak of the entreme cold of the past winter. Woives have been dividently abundant in Prussia, hering been diving out of Poland by the cold. At lisbon the inhabitants have suffered greatly. There have been only two snow storms in Lis-ter the second context control on in Silia and

aince; on his way initiae: Roam and surpentine in considerable quanti-tics are made in California, and Shipped to At-lantic ports, but as the San Francisco merchanis-buy for gold, and sell on the Atiantic cossi for currency, they have often surstands heavy losses on their cargoes in consequence of the critropy dinary fuctuations to prices here. The Califor-niass are also producing boras in such quanti-tics as to render it an article of export, and they are looking anxiously for our Atlantic markets to arquire some steady tone; in order to cashle iffer merchanis to make their calculations, with something like certainty. *Pdda. N. Am*. bon during the present century, one in 1813 m one in 1837. This Democratic journals all disparage the la-auguration ball, because the artistoracy of Washington society did not sitend, and was made upirargely of the people. It would appear a singular Dumocratic complaint if it, ware not that Democraty means if it his country abject ser-vility to an aristocratic class.

THE Rev. Dr. Howe, an Episcopal pasto This Key. Dr. Inowe, an Episophi passes in Charleston, refusing to pray for the President of the Unifed States, has been very contriously re-fused permission by the military authorities of that city to hold it is accustomed service-a pre-cedent which is said to be working a more whole-some foeling among the people.

GENERAL PALMEN'S regime in Rentacky is not likely to please the poro elasery popole any better than General Barbridge's did. The Loolaville Presisary: "We feel justified in giving abso-lute assurance to the reader that the claims of our country on its able-bodied and fighting pop-listion, will be alone considered by General Palmer in the conduct of any necessary recruiting which he may be called on to superintend in our State. The claims of masters to their slaves will be no more beeded certainly than the claims of parents is a son, of a wife to her hunsband, or of children

CURNOR FRIELES OF WEATHER.—The Supe-rior Gardie of February Shi, says that up to that time, enough snow had not failen to enable the popies to hast in their wood. At the same time, hat Fortage Lake, not filty miles farther northeriz, anow lay on the lovel from six to say en feduare

The Buffaio Ergress is glad to learn that the peach provers in this vielnity; on Graud Island especially, report that their archards never prom-ised tetter. Should no untoward turn of weather occur, the prospect of peaches and cream next fall is excellent.

DEMAND FOR BRHFING.—At no period during the present robellion has the Government needed so large a fact of transports as now. Every best of sufficient capacity is being brough into requisition, that can be obtained. Such is the draught upon the water transportation applian-ces of the country; that the transportation applian-ces of the country; that the transic channels of the trade are being scriously embarramed, and the price of coal is materially enhanced by reason of the immense stock being bought up by the agents of the department for transperiation pur-pace.—N. Y. Cor. Ads. The Bichmond Wile says that General Sin-fictor had nothing to do with the tobacco sciard at Fredericksburg. It was hought by an agent of a mercantile house in New York. The quantity scat to Fredericksburg was valued at \$700,000.
