Washingrow, April 15, There is no confir-malien of the report that the murderer of the President has been arrested. Among the cir-commandes tending to fix a participation in the crime on Boothe were letters found in his trank, one of which apparently from a lady, supplicating him to desist from the perilous undertaking in which be was about to embark. The Extra Intelligencer says: From the evi-dence (blained, it is rendered blighly probable that the man who stabbed Mr. Seward and his sons is John Surrais, of P.ince George county, Md. The horse he rode was hired at Naylar's stable on Mih street. Surratt is a young man with light hair and goalce. His futher is said to have been postmaster of Prince George county.

At about 12 o'clock last night, two men en ed the Aucosta Bridge, one of whom gave his name as Boothe and the other as Smith. The latter is believed to be John Suratt. Last night a riderless horse was found, which has been identified by the proprietor of one of

the statles, previously mentioned, as having been hired from his establishment. Accounts are conflicting, as to whether Booth crossed over the bridge on horseback or on foot,

but as it is believed that he rode across, it is pre sumed that he had exchanged his horse From information in the possession of the au-thorities, it is evident that the scope of the plot thortice, it is evident that the scope of the plot was intuided to be much more comprehensive.
