As near as we can estimate at present, the number of new wells now moder contract and contemplated to be suitable in the period of the perio daring the season, will not fall short of 5,000. Taking the average cost of three wells at \$8,000 each, and it will be seen how large a sum will be invested in the development. Engines and machinery of all kinds are being put in operation in these various localities, as fast as the state of the roads will permit. The Mayor forced his way, followed by the police, and on searching about found the captain in his borth, taking his rast. He was ordered to get up and dress himself, but he refused, whereupon the officers were told to arrest him and take him to the lock-up, ciothing or no ciothing. He them dressed him self, and after considerable grumbling, paid the semantial of the considerable by the considerable by the considerable promiting and the cemands against him. Some of the crew (who hall from Memphis) began to denounce Pittsburgh as an "Abolition hole," had they were forced to "eat their own words," and make ample apology for their slanders. The conduct of the captain and his crew was anything but creditable, and we think the government might employ more suitable agents to do their work.
