FINANCIAL AND COMMERCIAL.

SATURDAY, April 22, 1865.

There were no transactions in stocks of any character to-day, both the "Board of Brokers" and "Peoples Exchange" having adjourned over until Monday. The mania for Oil Stocks, which raged so violently at one time, appears to have almost entirely died out, and as a general thing, people begin to think now, that the less they have to do with it the better.

We take the following in reference to oil matters from the last number of the Philadelphia *Commercial List*: There is but little to be said about oil affairs during the present week. The excitement in reference to the assassination of the President has swallowed up all other interests, the stock brokers, bars, &c., &c., have done nothing, and speculators have ceased to be active. Petroleum matters have, therefore, been unnoticed, and there is nothing to be said about them, except that the reports from the different oil regions are encouraging, that the disasters of the late freshets are being rapidly repaired, and that, upon the activity in making new wells throughout the region of petroleum, most important developments are to be expected.

A well of 200 barrels was struck last week at the mouth of West Hicory Creek, on the Greene Farm, which has pumped and flowed steadily since that period. This well is only 111 feet deep, and the oil is of a superior quality. The well is about five miles above the village of Tionesta. This well is owned by a private and lucky individual, and is worth *four hundred thousand dollars!*

There is some excitement in the coal regions of Pennsylvania, caused by the anticipated fall in the price of coal, and the falling off in the usual number of orders from this and other cities. It appears that a large number of cargoes were sent to New York, in expectation of meeting ready sales at former exorbitant prices; but the New York agents refused to receive them at the shippers' figures, and the consignations are left to stand to the account of the original owners, and probably will so remain until a material reduction takes place. Many of the collieries have been forced to stop operations—it is said, in consequence of the determination of purchasers to no longer submit to extortions, and unless rule for below those at present demanded, many more will find it necessary to suspend work.

There has been a great falling off in the receipts of breadstuffs in Chicago this year, compared with last. The following table shows the receipts and shipments during the week ending April 15, and for the same time in 1864.

	1864. Receipts.	1864. Shipments.	1865. Receipts.	1865. Shipments.

A very extensive sale of dry goods took place on Thursday, at the auction rooms of Messrs. John P. Wetherill & Co., Philadelphia. About 600 packages and lots were put up; and the bidding for some of the goods was quite spirited; a line of linen cambric handkerchiefs brought fair prices, and cottons sold well, and were duplicated; series of housekeeping goods opened slightly on former sales. The silks were in demand, and many duplicates were taken. There was a large company, and the entire catalogue was sold with a few exceptions. DAILY REVIEW OF PITTSBURGH MARKETS.

SATURDAY, April 22, 1865.

There was a partial suspension of business to-day, although the majority of our business houses were open, yet for all that transpired, we are of the opinion, that in a pecuniary point of view, they might all as well have been closed. There was no movement worth noting in any department of trade, and excepting few petty transactions, there was nothing done whatever. The demand for produce was exceedingly light, being restricted entirely to supplying the immediate wants of consumers, and prices, generally, have undergone no perceptible change. Groceries continue quiet and dull, while provisions are moderately active at previous quotations. Flour is very dull and nominal at $8,50@9,25 for Spring and Winter Wheat brands of Extra Family. Grain quiet and unchanged. Small sales of Oats from store at 78@80, and in Corn we note a sale of 150 bushels at 75—common. Butter, Eggs, Cheese, and other articles of produce, quiet and unchanged. There is but little doing in Fruits and Potatoes are in better supply and drooping. Sale of 7 tons Shipstuffs at $1,70 per cwt.

PITTSBURGH PETROLEUM MARKET

SATURDAY, April 22, 1865.

The market for Crude was unusually quiet to-day, though there seemed to be a firmer feeling manifested on the part of holders owing mainly to the advance in gold and more favorable advices from New York. No advance has been established here as yet, however, notwithstanding holders are disposed to ask higher rates, and we continue to quote at $12@22, in bulk and bbls retained, and 22@27, bbls included, and these may be regarded as the extreme of the market, for merchantable oil. Refined, in bond and free, continues quiet and dobonned with a drooping tendency, and only one is reported was 100 bbls free at 65. There is no movement in Naptha or Residuum and in the absence of sales, it is impossible to give quotations.

The receipts of Crude by the Allegheny river since our last report are as follows:

Jonathan Gallagher	154
Porter, Miller & co	145
O. G. Brown	98
Jas. Wilkins	221

RIVER INTELLIGENCE.

The river continues to recede steadily at this point, with about seven feet in the bank in the channel by the marks last evening. The weather yesterday was blustery and cold, with quite a snow storm during the early part of the day.

The arrivals since our last report, include the Minerva, Bayard, and Express, from Parkersburg, and Kenton from Nashville. The Express was brought up here for repairs, and her officers expect a put her on the dock this morning.

The Emma Graham from Zanesville is due here this morning, and the Leonora, and Silver Cloud will probably arrive to-day.

The Minerva for Parkersburg, Golden Era for Portsmouth, and the Pilgrim for Zanesville, cleared on Saturday, with fair trips.

The Katie, and Echo, left for oil City on Saturday evening, and the Ida Rees, from the same point, arrived during the night. The Allegheny river is becoming so shallow, that we fear steamboat navigation will soon have to be suspended.

Capt. Robert Robinson, of the steamer Katie Robinson, arrived in Allegheny on Friday on a visit to his family. He is in good health and spirits, and reports the Kate in the Cincinnati and Nashville trade.

The America did not get off for Nashville on Saturday, being unable to complete her cargo, but she will positively leave to-day. Capt. T. Golding is in command, and Mr. Wm Blackstock has charge of the office.

The Bayard, Capt. Geo. D. Moore, is the regular packet for Parkersburg to-day, leaving at 2 o'clock. passengers and shippers will bear in mind that she leaves on time promptly.

The high-headed Lecanida, Captain McGowan, will be ready to sail for St. Louis this evening. The Lecanida has superior accommodations for passengers, and will go through with dispatch.

Capt. Claycomb, purchased one-half of the steamer Glide No. 5, at Cincinnati, on Thursday last, and it is stated that he will load her for Arkansas river. The Glide is a fine, fast boat, and was commanded by Capt. Wm. Gaff.

The Empire City, Capt. Hasley, is announced for St. Louis forthwith. Mr. James Collins is the agent.

The Leconers, left Cincinnati for this city on Thursday last, and the steamer arrived below on Friday. The Hard Times and Lorena, were advertised to leave on Saturday.

The Cincinnati Commercial of Saturday says—Capt. Thos. Fee, and clerk J. Q. A. Fair, of the steamer Clara Fee, recently burned in the Cumberland River, arrived here yesterday, and left for Pittsburgh in last night's train. They speak in the highest terms of Capt. A. W. Cramer, clerk O. R. Russell, and pilots Chapman and Hart, of the steamer Nashville, who extended every hospitality to them in their power. There were four lives lost by the accident, viz: Prof. Dillon, German, and Miss Riley, Irish, deckhands from Louisville Navy, colored chambermaid from Louisville, and a negro fireman, named Sam who shipped at Jeffersonville.

The Columbia and Starlight were at Louisville on Thursday last. The Centralia and Roanoke, were advertised to leave St. Louis for Pittsburgh, on Saturday.

THE

MONPAREIL WASHING MACHINE,

Patented and manufactured by OAKLEY & KEATING, New York.

This Machine has been before the public since April, 1863. It is now in extensive use (no thing short of the loyal States) and experience has demonstrated that it is the only reliable Washing Machine in existence.

It is a SQUEEZING MACHINE, strongly made, simple and easy in its operation, and not liable to get out of order. It is constructed on strictly mechanical principles, and solely with a view to utility and durability.

A girl or boy can operate it satisfactorily, and it *may be relied on to finish the work without assistance from hand rubbing.* It is warranted not to injure the finest garment.

The Agent here has pleasure in submitting the following extracts from Testimonials:

"I have no hesitation in saying that it is by far the best machine of which I have any knowledge, and about as perfect as anything of the kind can be.—*Dr. D. J. Kerr.*"

"In every respect it gives entire satisfaction.—*Dr. Jas. Patterson, President Westminster College.*"

"The turning of the machine is not more laborious than that of an ordinary grind-stone. Wristbands, collars, hems of garments, and the finest laces, can be thoroughly washed without injury, as it does not rub, but squeezes the clothes. It is economical of time, labor and soap, and its use calculated to become, universally, a domestic institution.—*Dr. John Dowling, Pastor First Reformed Presbyterian Church, Pittsburgh.*"

"It is generl use cannot fail to give satisfaction to all.—*Dr. Robert Gracey, Pastor Fourth U. P. Church, Pittsburgh.*"

"It has been in my family for several months—performs all that has been claimed for it well, and is a great saving of time, labor and clothes.—*Dr. John G. Brown Pastor Third U. P. Church, Pittsburgh.*"

It does its work with neatness and dispatch, and does it well.—*Rev. A. G. Wallace, Westmoreland Co., Penna.*"
