New York, May 18 .- The Herald's Washing. ton correspondent says: The question which has long been agitated as to who'ls responsible has long been agitated as to who is responsible for the cruel treatment of our prisoners confided in Libby, and other prisons in the South, may now be considered as definitely settled, through no less a person than the rebei Ex-Semator Foote. It appears that Mr. Foote was a member of the committee in the Senato to examine into the treatment of the prisoners and there. into the treatment of the prisoners, and the re ports of their barsh usage and starvation. His story, as told by his own relations, shows a deeper it tention than has been generally supported, and fastens upon Jeff. Davis and cabinet a crime both startling and appailing in its details. Mr. Foote, it is said, states that the investigations showed conclusive evidence that was decided in a cabinet meeting to reduce the rations served out to the prisoners, that it should so weaken itheir constitution, in, connection, with the confinement, that it would destroy them as soldlers, and make them, when exchanged, worthess. Senator Foote decime of the committee overruled him, and suppressed the facts.

My informant further states that it was on this point that requared between Davis and Foote broke cut afresh, which resulted in the latter leaving Richmond, and seeking some sequestered prof. where such borrid deeds are not committed. His story, as told by his own relations, shows

Special Biceting of Councils. A special meeting of Councils was called for To the Union Voters of Allegheny County:— The partial kind-res of friends prevailed upon me to recent the use of my name for the office Thursday evening, May 18th.
In Select: Present, Messrs, Barckley, Brown, In Select: Present, Messis, Barckley, Brown, Culin, Coursin, Herdman, McLaughlin, Morrow, Phillipe, Quinn, Reed, Roas, Thompson, White, Wills, Young and President McAuley.

The President announced that the object of the meeting was to hear the report of the Street Committee in relation to the sewer on Pennsylvania avenue.

In Select: Present, Messis, Barckley, Brown, Colonel T. Was of County Treasurer. For that office I was willing to stand a canvass against any civilian. Since that enunciation, Colonel J. B. Kiddoo, a brave and railant soldier, has been announced as a candidate. Colonel Kiddoo has given the best evidence of his loyalty, courago and devotion to the interests of his country. He has best evidence of his loyalty, courage and devotion to the interests of his country. He has
been disabled from pursuing the active duties of
his profession by wounds obtained in battle in
my defense, in common with those who remained at home. I therefore respectfully but samestly recommend him to the support so generousjy tendered me, knowing that he will faithfully
and honestly discharge the duties of the office.

Junk Espr. Mr. J. R. Reed then submitted the report of

the Street Committee, relative to the matter above mentioned. The report states that since pairs on the sewer, but still the didwallies had not been remedied—the sewer being in as bad a condition as ever. The Committee did not desire to incur any further expenditure without the consent of Councils, and referred the whole matter back for instructions. There were but two ways, in the opinion of the Committee, is which the evil could be remedied: 1. By going to the expense of repairing the oil State sewer, 15,000. 2. To continue wer, at a cost of about \$\frac{1}{2}\$,000. 2. To continue wer, at a cost of about 10 Try street, down Try street to a point opposite Fourth street, where it would intersect the old State sewer, involving an expenditure of \$15,000. The report was accepted.

Mr. Reed then submitted an ordinance for the construction of a sewer, as designated in the second proposition above recited, and appointing appraisers to assess the cost on the property benefited. The ordinance was read three times and passed.

Mr. M'Auley (Mr. Brown in the obsert) was pairs on the sewer, but still the difficulties had Colonel John W. Mr. M'Agley (Mr. Brown in the chair) presented a communication from citizens of the sented a communication from citizens of the sented a communication from citizens of the Fourth ward: strongly protesting against the use of the Allegheny wharf for the storage of oil and oil barrels, and notifying Connells that in case of damage by fire the city would be held reponsible. Mr. M'Aniey stated that the accumulation of oil barrels and the wharf, empty and full, had assumed the most frightful proportions. The entire wharf was literally-blocked up with barrels. The danger from fire was terrible to contemplate, as the barrels were now filled up so close to the buildings that in case of fire the whole city would be in danger of destruction. The entire wharf would speedily become an meonitoliable sea of fames, and in case of fire the whole city would be in danger of destruction. The entire wharf would speedily necessary that something should be done in order to relieve the wharf from the immense accumulations complained of. The wharf was about the complained of.
