A political contest of universal interest and significance is being waged at this mo-ment in K entucky, which, though appa-rently local in its character, is entitled to a wider interest than is accorded to it. An election for members of Coagress and members of the State Legislature is to be held in August, and the Kentucklans, al-ways famous for the zeal and energy with which they conduct their political strug-gles, even when no great question is involv-ed, see carrying on this one with unaccus-tion involved in it is this. Shall the consti-tutional amendment abolishing slavery be adopted? This question, it will be recol-lected, came up before the Kentucky Leg-islature, last winter, and was decided in the negative. But the friends of the amendment were not discouraged.--Beaten on the first field, they immediately prepared to ronew the combat on another and broader one. They have appealed from the decision of the Legislature to the people, entreating them to elect a majority to the next Legislature, pledged in favor of the amendment, so that it may be ratified with-out, further dispute, and the State disen-thralled from an institution which, it is present condition and status, is preeminent-ity a curse, because it is a progenitor of in-terminable discord. The fight is carried on with remarkable spirit and ability, and with a dignity and courtesy that mark even the fiercest discus-stons. The Louisville *Journal*, Governor Bramitze, Hon. George H. Yeaman, Gen. Koussena and Hon. Green Clay Bmith are the leading champions of the samendment. Governor Bramlette is not s candidate for not the scale in twor of the proposition. Mext year.
