Col., Ely, reporting from Columbia, 'South Carolina,' under date of July 20th, asys he flads the affairs of that bureau in that locality progressing much better than he had reason to expect. It is extremely important that all conflict between the civil and military authorities should be avolated, as we are now situated just out of a rebellion in which the people refused to lay down their arms until forced to do so at the point of the bayonet. The civil government is only allowed to proceed by the permission of the military, thence I decity regret the occurrence at Countries but the high character of General Thomas for pudence, justice and patriotism, warrants me in assuring you that he will gially receive and impartially consider any testimony you may wish in your behalf.

But magnanimous treatment appears to have spoiled them, and they are again becoming as overbearing and as imperious in their demands; and now, instead of teing contented with their privaces, they houghily ciain their rights. Their batted of the National Government is atill as intense as ever, and they are determined to cruttel their State in the old saccession and robel interest. Their new Governor, Mr. Parsons, only about a week previous to his appointment, in a speech at Huntsville, contended that the negrets were not free, as the Emancipation Proclamstion was only a military measure, and the rottelling always had not yet been rathed by the necessary number of States and to his comining it would not be. net yet been ratified by the necessary number of States, and in his opinion it would not be.
