This heaviest hall storm that has ever been known in that section, fell in Hancock county, Illinoia last Wedneaday. Farmers in that section report that every stock of corn has been ent off, as if by bulleta, and that the grape cropis entirely ruined. Fortunately the storm did not extend ever a very large section.

Anormen brintal horse exhibition, attended with fatal results to one of the competing animals, came off on the road between Kingston and Ellenville; M. Y. The distance was 28 miles, and one of the horses dropped dead while on the return, having made the trip out in less than three hours.

I adhered to the system of Government which appeared to be proclaimed by a considerable majority in obesience to the principles which I professed, based upon submission to the National will, under the conviction that the Mexicans were those who; exercising their civil omnipotence, had given themselves new institutions, and were trying to find the way to concillate order with liberty. But what a painful error! From this hospitable island I contemplate with increasing indignation the scaffold which the tyranny of a userping people are raising in tup beloved country to stain it with the blood of our brothers, and for the destruction of our people.

From this island I have contemplated also, with pride, your struggle for life with the invaders of your country; the soldlers called forth by the intervention, and the trumpet of the free has made my heart palpitate with joy, as in the happy days in which we combated together in defence of our firesides and our ouraged rights. The hopes of those who sought in menarchy the repose which the Republic daried them have been disappointed; the National dignity has been contemmed; pusies derived; one holy rights trodden under foot; thought enaleved; prostitution elevated and vitiue willified; the sanctuary draped in mourrabg, and the Church afflicted with tribulationa. Terror is seated upon the scaffold, brand their of the free has been contemmed; pusies derived in migration. War to the harder in Liberty or death should be the cry of every geinerous bosom in which honor has her borde, independence her altar, and liberty her rites. From Mr. M. B. Skillman, we learn that a fine yell of oil was struck day, before yesterday at Vermillion, in this county, at: a depth of six hundred and twenty-one feet from the surface. Tobing was immediately inserted and the pump set to work, and in the space of twelve hours they pumped eight barrels of the best jubricating oil and the quantity seemed to be contantylind, creasing. We examined a sample of the oil and the quantity seemed to be ontantylind, regaing. We examined a sample of the oil and feel safe in pronouncing it a very fine article. Excitement runs high in the neighborhood, and in less than a month a dozen other wells will be commenced.
