idly; and the time is not far distant when all traces of the curse will be obliterated. What we need to watch with jealous care now is that slavery, in a modified form, shall not again be allowed to entreuch it self in law—that the restored States, through the agency of the late rebels, shall not be suffered to oppress that portion of their people who have lately been emancipated. Better let the social and moral influences of which we have spoken operate awhile, beore the men who have clearly forfeited al claim to any constitutional rights, are inrested with power to bind or loose as they please in their respective States.

BRITISH FREE TRADE. Lord Godemon, in a debate in the British Parliament, hit the nail on the head exactly when he uttered the following words: when he uttered the following words:

"Other nations know, as well as the noble Lord opposite and those who acted with
him, that what we meant by free trade, was
nothing more nor less than, by means of
the great advantages we enjoyed, to get at
the monopoly of all their markets for our
manufactures, and to present them, one, and ill, from ever becoming manufacturing na-

Free trade, as understood in England, means nothing more nor less than all the Trade, in other words, monopoly, just as Lord Godesica said.

Treasury report, advises "first, to consolidate the debt; second, to reduce the interest to three or four per cent, and then establish a permishent staking fund similar to that adopted by William Fift, who was Casnicellor of the Exchange, to the British Parliament in 1793. Under such a the British Parliament in 1792. Under such a policy we could reduce our delt, in ten or welve years to little more than eight, jundred millions, a large portion of which would accessfully be restricted as a bants for the tested of the national bants, and the balance would nationally flose open the instruction of the bancs would nationally flose open the instruction of the bancs would nationally flose open the marks of the bancs would nationally flose open the marks.

hverment. in the South is illustrated by the fact that the city of Albants, Ga, has amended its penal code so sate place blocks on an equal ity with the whites. That place is now mainly peopled by new comers who are rapidly making 15 the metropolis of the State, It rises from its ashes renewed in character; the destriction of the day by Singman having cattered the old elements, left a void to be illed by a better popula-tion, a fair example, of a city putitled "as

Triz almost unive real prevalence of seces gion principles in Richmond, is shown by the fact, that of several daily papers there but one is professedly of Union scattments, and these are of a mild type, and it is se poorly supported that is doubtful if it will

be published much longer. Tun State of New Hampahire has imwithstanding that the Secretary of the Tressury holds that all bonds, Tressury notes, and other abligations of the United

The sppointment of a new Canadis True appointment, of, a new Canadian Premier excites great intrest. There will be, probably, a reconstruction of the entire Cahnet. So many of the present members aspire to the chief position that it will be discult to get them to serve under a former aspociate. Mesars, Carter and Maconald are speken of for the position. Mr. Canada are speken of for the position. Mr. Canada are speken of for the position. Mr. Canada on has also many friends. The appointment is likely to turn on the question of Confederation. It is known that no effort will be spared to render the Cabinet, harmonious and effective on this point.

THE Louisville Democrat thinks that sixty thousand slaves have gone over the siver on Gen. Palmer's passes.

From Titusville we learn that business is imroying, and the receipts and shipments of oil sters who are now unwilling to draw oil from Pithole at \$3,00 per barrel will soon be anx

forward to completion, and in a very few weeks will be finished and ready for business.

The Petroleum Centre correspondent of the Tiluaville Heraid says, that on Tuesday a well was struck on the Hayes' farm (generally known as Daizell fats) just below the Mapio Shade and Cequette wells, which presented one of the most remarkable phases in the progress of oil productions. At the depth of 60 to 70 feet, a large crevice was found, and the tools being saturated with oil, it was determined to tube the well and test it. Accordingly, after drilling to the depth of 60 to 70 feet, a large crevice was found, and the some afternoon the sucker-roled were inserted. Searcet of tubing was introduced, and the same afternoon the sucker-roled were inserted. Searcet, of tubing was introduced, and the same afternoon the sucker-roled were inserted. Searcet, of tubing a stendy stream of 70 barrels per diem. The oil is about 43 dex, gravity. The most singular characteristics of this greasy phenomena are that, unlike most surface oil, this is comparatively light, and this yield occurred, not in a sandy rock, but some 100 feet before even the first sand was reached. Another one hundred and afty barrel flowing well was struck on Sennehoff Run, belonging to the Bennehoff Run Petroleum Company of New York. This makes their aixth flowing well on the same Run.

The Pennsylvania Tubing and Transportation company are laying a pipe in which to convey the oil from the wells on Pithole to the mouth of the creek. Operations on this important work have aiready been actually commenced. The same company have had a survey made and are to lay a pipe from oil City to Rouseville and thence up otherry Run as far a sthe oil has been found. Upon its completion we may look for an increase in the price of oil nearly equal to the amount now pand for its transportation, as this new mode of transportation will cast nothing in comparison.

dug for the purpose. Its yield since the fire, with the sucker rods yet in, cannot be less than four hundred barrels. It promises to be the largest well on Pithole Creek. THE COQUETTE WELL. THE COQUETTE WELL.

The Titusville Daily Herald gives the following in explanation of the reports referred to two or three days since. It should be remembered by those interested in the stock of this company that the name of its principal well was given ket it is consequence of such changes as that noticed by the Herald:

that the name of its principal well was given to it in consequence of such changes as that noticed by the Hards:

FATA OF A "COCCETTE."—This great well, located on the Hyde and Egbert farm, near Petroleum Centre, ceased to flow day before yesterday. Our despatches of that date state that the Graft Hassan well, on the same farm, struck a large crevice, the eccape of the gas from which caused as homediate stoppage in the flow of oil in the Coquette well has long been known as the "Queen-of Petrolia." and has produced more oil within the last year than any well in the country. It commenced to flow on the first of November last. It was then estimated at aven hundred barrels. It has decreased somewhat since then, and at the time of its failure its flow was estimated at four hundred barrels. We are informed that its production has amounted from first to last to the enormous sum of one hundred and forty thousand barrels. Some time subsequent to its opening, soven forty-eighths were sold for three hundred and fifty thousand dollars. The interests are held by various companies and private individuals.

FROM CLARION RIVER.

located on the Hyde and Egbent farm, near Petroleum Centre, cassed to flow day before yesterday. Our despatches of that date state that the Graff Hassan well, on the same farm, struck a large crevice, the escape of the gas from which caused an immediate stoppage in the flow of oil in the Cognetic well has long been known as the "Queen of Petrolia," and has produced more oil within the last year than any well in the country. He commenced to flow on the first of November last. It was then estimated at seven hundred barrels. It has decreased somewhat since then, and at the time of its falture its flow was estimated at four hundred barrels. We are informed that its production has amounted from first to last to the enormous sum of one hundred and forty thousand barrels. Some time subsequent to its opening, sorem forty-eighths were sold for three hundred and fifty thousand dollars. The interests are held by various companies and private individuals.

PRON CLAIMON RIVER.

O'l mastiers on the Clarion and its tributaries are still promising. The number of borling wells in still increasing, and the indications continue encouraging.

The well on the Porter farm, one mile above town, is down to a depth of 300 feet. At that depth a strong vein of gas was struck while the with water over the derick, there with water over the derick, to five which had a subscience of the structure of the gross are comparatively and the price of gold, as we do now while our sym. Santiacom rivers and rive

considered good policy to go still despen.
There are two wells at the lineath of Plany.
The upper well-is down 538 feet, and the lower well-26. There is a good inow at both, and Mr. Genth is constant of striking plenty of oil indied of 500 feet) are the a well to expel indied of 500 feet).
This objections on I failly Tony are very calso stry, and soon expect to have good expert from the type of the stry good expert from the type of the stry good expert from the type of the stry good expert from the whilefully well is now yielding the character per lay of early indied well as the story was grilling the character per lay of dark oil of superior gradity. When the water is channeld this well will do a great deal being, at there are two reins about of by the force of the water is channeld this well will do a great deal being, at there are two the same of a year large increase.

In will be remembered that when General Grant in it will be remembered that whe fine in the actor House, New 2011 in will be remembered that who General Grant in it will be remembered that when General Grant in it will be remembered that who General Grant in it will be remembered that the Astor House, New 2011 in the contract of the same a public reception as the Astor House, New 2011 in the contract of the same and the same

It will be remembered their when tennent tireal gaves a public recoption at the Astor House, New York, some times times, some destruity' follow made an estempt to wearch the General's arm out. of joint, by seiring his hand with a vice-like grasp and rivisting it round in a painful manner. A similar attempt to injure the General was made at the Fanenti Hall recoption; in this city, or Monday. While the 'inforty of Listins and gentlemen were paying their personal respect to the distinguished here, as individual respect to the individual of the same manner that it was grasped in Now! Tork, stampling to give it a sudden wist, which the descrast succeeded in prepariting only by forther was increased the operation selected the man by the sack, but the reseat sexped from him, and was quickly lost in the errord which was hurrying, part in the reseat sexped from him, and was quickly lost in the errord which was hurrying past. There is no done to the his it was a deliberate attempt to inflict personal injury upon the General, and we undergrand, step, that he same games, who wind the same games has those to the same games who will be same games as the payer of the haddles were imprisoned in Flamese and the Hible, we see as common progress in Italy. Protestind churches and the protein and the Hible, we see as common progress in Italy. Protestind churches and chapters of the reversing any its between the State and the Church. As to education, it is far from being estimated only its actual of the population has get some rudiments of education. *Florence Cor. N. T. Tribune. gave a public reception at the Aster House, New

NEWS ITEMS THE narrow piece of land dividing the dicate a better feeling. Crade at the wells has upper part of Portage Lake from Lake Sudeclined about 25c per barrel, and the price of perior, west of Keewenaw Point, is to be teaming is gradually coming down. Team. cut through by a ship canal. This long talked of work has at last been let to a plank road to Pithole is being rapidly pushed forward to completion, and in a very few weeks will be finished and ready for business,

The Petroleum Centre correspondent of the Pitusville Herald says, that on Tucsday a well was struck on the Hayes' farm (generally known is Dalzell flats) just below the hispie Shada and counter for the passage from Portage and firty miles in the passage from Portage Lake to Ontonagon, and will obviate the dangerous passage. New York contractor, who will commence

Point.

The Sultan has been very ill. It is supposed that he is so still. For several days it was generally believed that he was dead. And Pasha represented that his disease was inflammation of the bowels. Fund Pasha said it was nothing but common chills and fever; but private advices from the palace say that the Sultan appears to be insane, and that unless he soon dies it will be necessary to confine him.

The Tisoner who was conducted to

necessary to confine him.

The prisoner who was conducted to Washington with so much appearance of mystery, turns out to be a mere common swindler, and not an assassination conspirator, as alleged. His name is S. W. Faller, and he is the fellow who was charged with defrauding Senator Harlan and the Republican General Committee out of \$45,000 at the late Presidential election. On Saturday night last some scoundrels visited the residence of J. H. Donels, Esq., near Wellington, and completely destroyed five hundred apple trees, and pulled up and ruined one of the handsomest young vine-yards in the State. It is understood that the whiskey dealers have been the instigators in this malignant affair.

PARSON BROWNLOW says he agrees with those who are horrified by the execution of Mrs. Surratt. But the terrible thing is not merely that a woman should be hung, but that a woman should do a deed meriting hanging. In his opinion a she-devil is as much to be dreaded, and as properly subject to punishment, as one of the other sex.

GOVERNOR SHARKEY, of Mississippi, has evied a tax of one dollar per bale on cotton to pay the expenses of the Convention. The Great New Method.

Dr. J. FLATTERY, FORMERLY OF SAN FRANCISCO, AND LATE FROM NEW YORK,) Great Traveling Physician of the Age, WHO HAS CIRCUMNATIGATED THE GLOBE EVERY QUARTER, Has Opened Rooms

IN PITTSBURGH, PA.,

AT THE St. Clair Hotel, FOR FOUR WEEKS ONLY. Cure the Sick, and particularly at end to the Cure of Chronic Dis cases, Consumption, Bron

chitis, Catarrh, Asth-ma, Deafness, DISCHARGES FROM THE EAR, NOISES IN THE HEAD EYE, EAR, THROAT AND AIR PASSAGES.

Consumption is a local disease, generated and fed by the blood in a certain chemical condition, and can only be removed by local chemical means capable of altering that condition through the medium of the diseased organ. To accomplish this purpose, as we cannot apply finits to a certify designed only for the reception of air, we then reduce them to a volstille condition, and from an appropriate bestrainent inhale or breathe the vapor. The produced by medicines much more specific and medicines that the administration of cruce medicines that the atomach. The practice of giving medicine that the stomach in the treatment of lung diseases is objectionable:

1st. Recause they do not come in direct contact with the organ affected.

2st. Recause their most powerful action is expected to organs in a healthy state, or only discovered to organs in a healthy state, or only discovered to organs in a healthy state, or only discovered to organs in a healthy state, or only discovered to organs in a healthy state, or only discovered to organs in a healthy state, or only discovered to organs in a healthy state, or only discovered to organs in a healthy state, or only discovered to organs in a healthy state, or only discovered to organs in a healthy state, or only discovered to organs in a healthy state, or only discovered to organs in a healthy state, or only discovered to organs in a healthy state, or only discovered to organs in a healthy state, or only discovered to organs in a healthy state, or only discovered to organs in a healthy state, or only discovered to organs in a healthy state, or only discovered to organs in a healthy state, or only discovered to organs in a healthy state, or only discovered to organs in the produced to organs in the state of the or

MOST EMINENT TESTIMONIALS.

From Sir Charles Scudamore, M. D.—In consumption, oven desperate cases, I recommend the use of inhalation as the only possible cure. In chron to broughtist the benedits are so well proven by the speedy alteration in the quality and quantity of the expectoration, that no doubt of the value of the remedy can be reasonably enterstained. It gives relief to the attimation patient, proves cure treme advances which but quimouslis, I those as treme advances which bid demance to the ordinary rules of practice.

Remarkable Cure of Consumption.

My son, William Waltz, had been afflicted more or less for about two years, when he was take down is consumption, and during his confinement to bed he had had the most skillful medical at tendance, with the advice of the best San Franchis tendance, with the advice of the best San Freciesco physicians, without receiving any benefit.—
His medical attendants pronounced one of his
nungs gone, and that he was in the last stage of
consus pitos, and after exhausting all their medical skill on birn, he continued to grow worse, and
in this hopeless condition, Dr. J. Flattery was
alled to see him, and after a careful exmination
he intimated a possibility of his recovery, and accordingly the Dector prescribed his new treatment
(labalants), under which my son rapidly improvde, and at the expiration of about two months he
became restored to perfect health.

But now definite information of my son's most

Boy more definite information of my son's most deplorable condition during his affliction, I invite all interested to give me a call.

SALOME MARKHAM, late Mrs. Waltz. No 8 Brock street, between Gearly and Market, and Dupont and Kearny, San Francisco, Subscribed and sworn to, this ist day of July, A. D. 1933, before me. CHARLES W. COME. CHARLES W. COOR,
[L. s.] Notary Public, San Francisco. ASP All patients at a distance can be cured at home by convulting Dr. FLAATERRY, by letter, stating their name, age, occupation, time taken fill, cansitation, number of treatments su mutted to, description of causes and symptoms experienced, and those existing.
