GOODS FOR SUMMER AND FALL use of Schench's "Pulmonte Syrup," and "Mindrake Pilla" whist they are dying daily under
the ordinary treatment of physicians.

It is a great mistate common among many intelligent persons, that there are medicines which will
purify the blood. When the blood is diseased it
cannot be purified; it is then the same as other disease matter in the system and will have to be carried out of the system by the organs which are
appointed for that purpose and replaced by new
appointed for that purpose and replaced by new
formed and setting the digettive apparatus in
good working order. The stemach, liver and bowder
once restored to a healthy condition, then any
abundance of good, normaling food will make
new blood which will push out, as it were, and take
the place of that which is diseased, and thus supply the want of the body.

The Purisons Strur is one of the most valuable medicines known. It is nutricent, powerfully
tonic, and healting in itself. It is readily digested
and broken-ewen conditions of the system.

Schener's Snawest Toxio is distilled from
seawerd, combined with other tonio and alterative
roots and barks, in such a manner as to make a
decidedly pleasant medicine, having a powerful
tonic effect, without the terrible disartous results
arising from siccoolis stimulants. The Seaweed
tonic produces lasting results, thoroughly invicatalling it to eliminate and make toto healthy
blood, the food which may be used for that purpone. It is ownoderful in its ffeets, that a wiseglass, find will digest a hearty mea, and a little of
it taken before breakfast will give a tone to the
atomach which few medicines pouseas the power of
delige.

The Manprake Prize may be taken with entire PETROLEUM REFINERY.
