TEACHERS' EXAMINATIONS. A refurned soldier was killed at Greenwich PITTSBURGH, August 9, 1555. The Pittsburgh Gazette. A refurned soldier was killed ist Greenwich, Conn., on Saturday night, while heading a riot-ous crowd of young feliows who had undersaken to infict summary punishment upon a negro who was living near that town, very peaceably, and minding his own business. His offence, as they deemed it, was in having a white wife, an trish git, who voluntarily married him, and with whom he had lived for a considerable po-vido. This was though by the assallants to be worthy of mob justice, and, after tortifying with the requisite Hquor, they undertook to drag forth the define a vide awake of negro wonan, who interfored a wide awake of negro wonan, who interfored a wide awake of negro wonan, who interfored a wide which her house, nor ever a fraid of handing a gun, confronted the mob at the door and advised them to desist, at the same time dring over their heads. They were only about fitcen to one, and attur a little crare they concluded to go on with the job. So they threw stones at the house, and made various attempts to get in. The old black woman at last fired directly into the crowd, shooting the ringleader through the brain. He died immediately, and his barze companions retired, giving up the job as a bad speculation. The negroes were taken were examined by the Coroner's Jury. The case was plain, it would seem, the jury found a verdiet of justifiable homicide, and ordered the discharge of the prisoners. onn., on Saturday night, while heading a riot THE BOARD OF DIRECTORS OF THE COLUMBIA OIL COMPANY TUBLISHED BY their competion may reduce the rates of wages, THE GAZETTE PUBLISHING ASSOCIATION. the Board in place of James Buchanan. The friends of Franklin and Marshall have long felt that the connection of Mr. Buch-anan with the institution was an injury to it, but there was a delicacy about getting id of hum. The necessity for a change, however, at last became so overwhelming that it could no longer be resisted. The Rutland (Vt.) Herald relates that on Friday afternoon Michael Welch, John Carney, Francis McCormick and John O'Harne, employed in loading a gravel train on the Rutland and Burlington R nil-road, were burled allve by the caving of a sand bank about a mile north of Pittisford. The accident occurred at about two o'clock p. m., but the bodies were not recovered until hear six o'clock, owing to the sand continuing to run in almost a fast as it could be aboveled out. IF the actior of any "Democratic" news-And how came these villages into existence ? The joint stock principle was very

generally adopted in New England long before it was heard of in the more Southern Btates. The numerous streams of that country afford admirable water-power, for they have rapid fall in their course to the sea,

and they maintain a plentiful flow of water in dry seasons. One of these falls is selected, a company is formed, a part cular branch of business is agreed upon. . It may be to manufacture cotton or wool, or to

make buckets or buttons, or clocks or watches, or paper, or buckles-no matter which. They are going to do one thing, and they are going to do it largely and

well. The stock is divided into small shares, and the majority of those who take it put in not only their money, however little it may be, but their skill and labor They gatherin; and in due time a pretty village springs up in which these working
