The Pittsburgh Enzeite. PRIDAY, AUGUST 25, 1865.

CITY AND SUBURBAN. Barker's Dry Goods Establishment. We made a visit of special observation and inspection to the immense dry goods establishment of J. W. Barker & Go., 59 Market street, yesterday. With us this has been for a long time a favorite firm, for several reasons. The rictors are gentlemen of great affability and proprietors are gentlemen or great anatomy greatly. The clerks and salesmen are mostly all obliging, patient and attentive. And it is no all obliging patient and attentive. ter to have patient and polite clerks when in these days, especially, purchases hav to be made with due regard to the strictest economy. It requires considerable time to inspec 16 goods and make judicious and serviceabl selections. No danger in almost any case in this establishment of being treated anapplishly or

telections. No danger in almost any case in this establishment of being treated anapplathy or with vulgarity.

One of the proprietors very kindly showed us housed had been the proprietor very showed and though we had paid frequent visits before, we had no idea of the himmentity of the comen until we went through it in detail. Descending to the basement we find it sets apart tractalistic prices as miniles, prints, ginghams, flannels, tickings, checks, &c. This spartment is literally chuck full of this description of goods, which, like sell the goods in the establishment have been purchased in the East on the most favorable terms.

After surveying the basement cavefully, we assemded to the first story, which is used for the retail trade. Here we found a choict selection of silks and astins, moire antiques and dress goods of all kinds. This is the principal record of this ladies, and judging from the number which visis it, we would say it is a very favorite one. Here there is somehing to place every tante, however refued or fastidious.

Having seen everything that is to be seen here we make another secent. The second story is a room for the saleshishment and must prove very convenient to country merchants and others.

On the third story, dress goods are sold by the wholessie. In this department we found a fine collection of French merinoes, parametrias, college, barathesa, &c. This is also a now feature in the establishment.

The firm of the Messre Barker & Co. possess ware fairlines for the purchase of goods at the best market rates. Some of them are Eastern men, and there are two purchasers constantly in the Eastern markets, so that no opportunity for

men, and there are two purchasers constantly in the Eastern markets, so that no opportunity for purchasing at low rates can pass without it being purchasing at low rates can pass without it being cubraced. Besides, mostly all the proprietors and salesmen are thorough bred dry goods men, so me of whom we have known in this capacity for more than fifteen years.

J. W. Barker & Co. have now on b and one of the largest stocks of dry goods ever brought to the largest stocks of dry goods ever brought to this city, and all the advantages possessed by the film in their purchases shall be made to inure to the benefit of their customers.

> We have learned that J. B. Darrington, Esq. local Freight Agent of the Cleveland and Pitt burgh Railroad, has been appointed General Agent of the Pittsburgh, Columbus and Cincinnall road, to take effect on the completion of the road between Pittsburgh and Stenbenville, which will be in a few weeks, his headquart to be at Pittsburgh. Mr. Dorrington is well drilled in the business of railroading, having Sen engaged in it for many years. It is cleven years since he first entered the service of the C. & P. B. R. He was also, for a time, connected with the Pennsylvania Central and served in various capacities during the administration of D. A. Stewart, Eag. He rectrered the service of the Cleveland road some years since, and has been acting as local freight agent at this point for some time. His busines talents, energy and industrial habits entenently quality him for the rostition to which he has been elected, and we cordially congranulate him on his appointment. Hon. T. L. Jewett who has done such eminent service for the Steubenville and Indiana road and rescued it from all its embarrassments, will be president of the road between Pittsburgh and Columbus, which is expected to do a four-ishing business as soon as it shall have been opened. wa engaged in it for many years. It is clove

opened.

Thomas J. May, Esq., has been appointed local Freight Agent of the G. & F. R. R. vice Mr. Dorrington. Mr. May has been connected with the road for upwards of ten years, and for the last three years has been cashier of the freight office at Pittsburgh. He is one of the very modest young gentlemen of our acquaintance, but is nevertheless, one of the most correct and thorough bublings men and is bedien, existing. ough business men, and is, besides, atric al in his babits. His promotion is du

merits and energy, and the faithfulcess. Improvement in Iron. Early in May, it will be recollected, we pub-lished a certificate of the tenalle strength of a plece of iron manufactured in this city by Mr. John D. Williams, a practical workman, and tested at the Fort Pitt Workson one of the government testing machines, which sustained the unprecedented strain of 160,900 pounds to the square inch. Although nothing has been publiabed on the subject since that time, the inven-tor and his partner, Josiah Copley, Esq., (who, until recently, was one of the editors of the Gacrite,) have been following the matter up, ma-furing patents in this and other countries, and furling patents in this and other countries, and making further experiments to satisfy themfelves and others that the process is followed by a uniform result. Of this they are now sure—
all the iron they have made being remarkable for tonginees and maleability.
Although they have no intention of making a m nopoly of this very valuable improvement, y. t is is in contemplation to get up a joint stock company, for the purpose of erecting or purchasing a reiling millin which the improvement can be firmly maintained, as a still further perfected. The cost of manufacturing iron by this process is a very small per-centage over the or-

fected. The cost of manufacturing irbn by this process is a very small per centage over the ordinary method, and the variation from the usual mode of operating a pudding flurnace but alight. A tull and complete printed manual will be furnished to each establishment which shall secure the right to manufacture by this process. A Stolen Horse Recovered.

Bome days since, Mr. Edward S. Castner, of Bienbenville, had a valuable mare stolen from his premises, and made information before the Mayor of this city, giving a description of the thief, a man named Samuel Cable, whose arrest has not yet been effected. Officer Culp, howeyer, succeeded in getting the mare yesterday murning. He told the owner to look at the hings passing on Liberty street, who did so, and expled the stolen animal in possession of a gypsey, who was leading it and another horse to the camp at Sawmill ruo. He immediately notified Officer Calp, who took the man and horse in fundady, and brought them to the Mayor's (filec. He appeared, on an examination into the feets before the Mayor, that Cable had sold the mare, valued at \$125, to a man named Thomas Sheeback, for \$35. Sheeback in turn had traded it to the gypery, Wm. Wells, for another mare, rained fifteenes. The owner and the two parties who had purchased the mare were present at the examination. His Honor horres passing on Liberty street, who did so and the two parties who had purchased the mare were present at the examination. His Honor decided that the mare should be returned to the original owner, the gypsey's mair returned to him and the money received from him refunded. Sherback would necessarily lose his \$55 paid for the stolen animal, unless the thief could be arrested and the money recovered from him. His arrest was probable, but that Sherback could be made whole for his loss was quite doubtful.

Beilde for The Care And Adentifie die The unknown man , whose body was found floating in the river nearly opposite Sawmili run on Wednesday morning, has been identified by his wife as Peter Donahue, realding or Cherry alley. Mrs. D. recognized the shoes worn by the deceased as belonging to her hasband. On going to the Mayor's reflice for the purpose of identifying the hat, worn by the drowned man, it was found to have been spirited away by a hatjean yagrant who had been released from the tombe. The deceased was a steamboat man, and leaves, beside a wife, eix small children, none of whom are able to work. Man. D. believed her husband to be down the river, having started on Honday to go of a steamboat, but it appears the beat greatured some than almost preceded, and her husband, was drowned on the same morning. going to the Mayor's office for the purpose of

Tarcenyofa Pocket Book .- A man named Tareany of a Pocket Book.—A man named Dauld Mahugh was arrested yesterday moraling by officers Herron and Mesaner, charged on each of Abednego Davis-with stealing a pocket book containing thirty-three dollars. Davis, it supears, was in company with Mahugh on Wednaday night, and after drinking several times together the two started to go to Birmingtam. On reaching the Monongahela bridge, Davis being overcome with his frequent potation and down in the toll-house and went to tech. When he awoke in the morning his noney was missing. Mahugh had a hearing together the dealth.

Serkune Picule.—A social picule will be

Reptane Picule.—A social plenic will be a trem by the Neptune Piro Company at Glenood Grove, to day. The steamboats Mimod and Pike will leave the ferry what at the Point every hour for the grounds, commencing at 8 2.8., and continuing muli 6.9. M. A bost row will come of during the day in view of the grounds, between the Champion Jimuy Hamill to his sirgle scull, and dohnny Hamill and Frid. Wull in a two-pared book.

Larceny .- Mrs. Griner had a partia I bearing Larceby.—Mrs. Gruer hen a parties a season before the Mayor last night on a charge of stealing a variety of household goods and clothing a variety of household goods and clothing a variety of household goods and clothing and season for sale of the continuous season for sale of the charge of Monday.

Book Notices. In this volume, just lasted, the writer gives esting account of facts and phenomens that fell under his observation during a yielt to He also gives a graphic description of the pro-cess of boring wells, repairing them when out of order, and refining the oil. He enters minutely

into a consideration of the physical formation o the country, and in his geographical conclusions agrees, in the main, with the researches of Pro-fessor Rogers. Much useful information is giv-en about logating wells, and the statistics of production.

This we think, from a cursory glance at it, is mee of the most interesting works that has been published on the subject, and must prove valuable to all who are engaged in cleaginous pur-

reived and is for sale by W. A. Glidenfenny, 45 Fish street, and John P. Hunt, Masonic Hail, pith street. FRANK LESLIE for September, has been MMR. DRMOREST'S MIRROR OF FASHION for September, for sale at John P. Hunt's 59 Figh Street.

september, for each at John F. Hunk's or Filth street.

We are indebted to R. J. Fisher, Cincinnati, publisher'of Southern Prison Scenes, for two sheets containing lithographs of various scenes in the South. On one we have a representation of "Castle Thunder" and "Libby Prison," on which is inscribed the names of all the officers of the Hulled States Army and Navy who were confined in the latter, These scenes will be interesting historic reminiscences.

If Press, Artenna Ward's naw book entitled, "A, Ward; His Travels," is rapidly passing through the press. Owing to the great demandfrom the trade, a large edition is being prepared.

CARLETOR, the New York publisher, has in in press a new comic book, written and illustra-ted by himself, entitled "Our Artist in Cuba." Bisorderly House.—Mrs. McIville, who keeps a disorderly house on the corner of Arthurs street and Keating's alley, Seventh ward, had a hearing before Alderman Butter, and was given one of two alternatives—either to break up her den, or enter ball for her appearance at court. Each prefers the latter. On Wednesday she was fined \$10 by Alderman Johny, of the Seventh ward, on a similar complaint, which she paid. The house has long since been a source of annoyance to the people of the neighborhood, who will use every effort to have the nulsance shated.

EPittsburgher Murdered.—Cincinnati pa-less inform us that a man named L. D. Mc-Donald, said to be from this city, was murdered (by poison) and robbed in Cincinnati on Mon-day. Suspicion rests upon a man named Jas. Adams, who roomed with the decessed at the Olean House, in that city, and who fied soon after the death of M'Donald. Adams and Mc-Donald were discharged gunboatmen.

Fire Twenties declined one-fourth per cent. The last teamer reports a decline in the English market of five-eights per cent.

The amount of business transacting at the castern board has very much fallen off for several days past. Some find an explanation in the fact that the Ketchum defaleation called many bankers home from their summer retreats, who most that the excitement is over, and confidence restored, have left the city again. The explanation seems hardly sufficient against the growing aburdance of currency, and an easier money may aburdance of currency, and an easier money may

aburdance of currency, and an caster money makes. We look for it rather in the fact that So retary McOullough is drawing heavily on the Ma-tional Bank depositories. The large balances usually in the vaults of these banks was a constant usually in the vaults of these banks was a constant temptation to over-banking. They were leaning to brokers on margins, thus keeping the buils in funds, helping them to put up stocks and gold. The Secretary wisely resolves to put this temptation out of their way, and at the same time see if he cannot bring down the price of gold by helping there balances in his own hands. We think he will queeced in bringing It down from five to ten per cent if he follows up his idea.

Our local market very dull. A few transactions in government bonds at about New York quota-

agovernment bonds at about new rorm quo-ions. A weak enquiry for bank shares. A sale of 100 shares Oil Oreck & Cherry Run at \$1,20. A There was some inquiry for Cherry Run & Pit-nole, and sales were effected at 65 cents. Bitchie is still changing hands, though the demand is fall-ing off somewhat. Columbia sold at 27@2714—in mail lots. There were also, some tran he prices realized.

CENTRAL LIVE STOCK MARKET. CATTLE—The market for Untile has again been quite active this week, the transactions being que large, although, restricted mostly to "stockers," while prices have undergoes no perceptible change. The most remarkable feature we have to notice, is that the stock on saie, in point of qualinoute, is that the stock on sais, in point of quan-ity, was hardly up to the usual average, being composed mostly of light steers and cows, suitable only for stock growers, and rough own and bulls untit for best, but we have no doubt the meat of these same animals will be found in the eastern markets within the next week or two. The domand for shipment to Philadelphia was only mod-erate, but as the supply of really good. Uattle was not very large, the market ruled steady, and one tions may be fairly given at 76714, for prime t catra steers. Stock Uattle ruled active and preity firm, with large sales at prices ranging from 45,63%, and these may be regarded as the extreme of the merket.

SHEEP-Market has been active and a little weak and, as compared with last weak, prices have defined %6% cent per pound. Aspitul be seen by the sales prices ranged from 53,63% of the sales prices are sales from 50 and 50,50% of the sales prices are sales from 50 and 50,50% of the sales of the sales prices, in the absence of somewhat, which, we presume may be attitunted to a slight depression in the Philadelphia market. No sales of Lambs reported, in the absence of which, we quote nominally at \$2,000,500 per head. HOUS—Good heavy Hogs, are in good demand for ablipment, and with a light supply and very limited receipts, this particular kind sells readily at \$11,000 per very greas; includin nogs are aeiling at from \$10,700,100, this aircady atacted the demand seems to be confined mostify to the best qualities. extra steers. Stock Untile ruled active and pret

at qualities.

BIVER INTELLIGENCE. The river rose steadily during Wednesday night and Thursday forençon, but last evening it was again receding, with about six feet in the channel by the marks. The weather yesterday was cool and pleasant, and apparently settled.

Business, we regret to state, continues very dull at the landing, and what is worse still, there are no indications at present of any improvement. Beats are plenty and freight: very scarce, and our steamboatmen generally feel discouraged.

There has not been a single arrival from below since our last report. The Amelia Poe, was about ready to leave for Cinnoinnati tast evening, but we are of the opinion that she would lie over until this merning.

antil this merning.

The popular and commodious Armadillo, Capt.

Swaney, is filling up steadily, and will be ready to Swaney, is filling up steadily, and will be ready to clearly of St. Souls this evening, and passengers and shippers should fear this in mind. Mr. Thos. S. Oalboun is the cashier.

The Hard Times, in command of Captain Perry Prown, A. J. Haalett, clerk, is announced to leave for Memphis and New Orleans to-corrow morning the same and the second modalions for passengers and an according a commandiate for passengers and the same according to the same and the same are the same as the same and the same are the same as the same are the same are the same as the same are the
