A second visit of the measenger from Allegheny

The sixtenent that the ex-Governor had agreed to settle a large sum upon her child, when she should have one, was made by herself, when making the arrangements with the gill above mentioned, and to explain why it was that she desired to undertake so difficult and dangerous an experiment. The deception was most successfully earlied out, and had it not been for the death of the child she would have accomplished all that she desired.
