The INDLAS TROUBLES.—Gen. Pope has re-ceived very favorable accounts from the plsus, concerning the Indian troubles. From General Sully, commanding in the Northwist, accounts are received that the Indians are more peacea-ble, and treating for permanent peace. General Conner's expedition to Powder River has been a great success, and the Indians are thoroarbly enbigated. Many of the troops now on the plains will return eastward this fall, and be montered out. The rebel regiments have done, and are doing, admirable service on the plains, and deserve credit accordingly. The greatest fear is that the Indians, being liable to sarva-lion the winter, cannot be collected into colon-tean the reservation before. the winter Asson pressed with the workings of the Tressury Depart. ment, as will be seen by the following extract : ""The sta cmrnt of the National debt as it stood on the Bist of July astonished all in the fact that the cubic in the user's precising two months had been increased but about two million dollars per day, when it had been prediced that the ex-per day curing the interval for time. PITTSBURGE PETROLEUM MARKET

PITTSBURGH PETROLEUM MARKET TUEBDAT, Sept. 5, 1864. CRUDE--The Urude market continues very film, and with a fall demandly both for home use and shipmenti, and a very light supply, prices are still itending downward. The receipts rave been enceedingly light for nome ten days past, and we do not believe that at the present time; there are over one thousand barrels in this market for sale, or in the hands of Urude dealers. Sale of 130 bbis at 21; 220 at 31; 340 at 215, and 300-late on Monday evening-at 25, bbis included.
