The Difficulty between Gov. sharkey and Gen. Slocum.

New Orleans, Sept. 7.— The Times' Jackson special says: General Slocum has recalled his order opposing Governor Sharkey's call for militia. Governor Sharkey is out in a letter embodying a portion of the President's proclamation, which sustains the government in the case of Sharkey and Slocum. The President says he believes a military force can be organized smilicient to endorse civil authority in the state, and which would enable the federal government to withdraw tile force to a great extent from the State, and thereby reduce the enormous expense of the military there to suppress any insurrectionary movement. He says the papile must be trusted with their government. The proclamation authoriting the restoration of State government required the military and grovisional governors not to impede in any way the consummating of the object of his appointment. Jackson, Sept. 6.—Thoops are arriving here, preparatory to the evacuation of the State. The people rejote at the idea of the restoration of civil authority.

Maximilian's Arbitrary Sway. MEXICO FULL OF ADVENTERERS. Alleged Conspiracy Against Maximilian

MINING OPERATIONS STAGNANT.

NEW YORK, Sept. 10.—A morning paper publishes the following private letter from the City of Mexico to the 28th pig., containing some in

teristing facts about the evolutinary sway of Maximilian:

The city is said to be virtually under the most
tyrannous form of mariial law. Every reoublican whese phalicess obliges him imperatively
to reside there, but who takes no part in the
cause of the Empire or the Liberais, is subjected
to surveillance. The city is full of French and
Austrian dependence, who are desirous to obtain
the high rewards offered to all who can implicate
any citizen in hostility to the Government by
word or deed: This circumstance has led many
who are to cowardly to enter the army, to become spies and informers, and as they are paid
by the case, the perils of the Mexican, whose
loyalty may have been deemed doubtful, can be
easily imagined. Of course, these conscientions
met were not long employed till they discovered
a conspiracy to dethrore Maximilian. Five of
the informers mahed to Maximilian's place on
the afternoon of the 24th cit, and made known
the tidings that his life and Empire were in
desiger, and that they had just found the leaders
of the conspiracy against both. The parties
were then named and their arrest immediately
ordered.

It is stated that they are to be tried by court mertial. to the Fostress of Ulus, Yera Griz. It is stated that they are to be tried by court martial.

The conservative papers of the city openly declare that no such conspiracy could have existed, as no Republican would embark in an enterprise of the kind, which would be fulle.

It was reported jin Mexico, that General Mella, the Imperial commander at Matsmoras, had expressed his citalito of the policy of Maximillan, in giving some of the Liberals to whom he is opposed, a voice in the government. The Emperor and General are said to be in very indifferent terms on this account, but the critical state of public affairs prevents a rapture between them.

The municipal authorities then took the oath of allegiance.

NEW YMML Sept. 10.—The Heroid's correspondent at Maralian, Menteo, July 18, says. Hold decides, that owing to the technical working of the law, this Corps of additional aids belongs to the Regular army, and is not entitled to extra compensation although they may have been mattered in the state-day and served side by side with Volunteer officers, and have received honorable discharges of the samedate. This was obviously dotthe intention of the framers of the law, but the opinion
