are two reasons for this change, the first of which is, that the active members of the Board find it im possible to get ready for the axhibi-tion at the time first fired upon; and the other reason assigned is that *iAree* county fairs, in the immediate vicibity, have been fired for the same week-mamely, thore of Wash lngton, Beaver and Butler counties. It was deemed ad visable therefore, to postpone the opening fars for turgich, which has been doue. The entities will be copened for the public on the 13th, 19th In this connection we would urge upon our farmers, manufaciners, and basiness man gen-ard now that the time has been doug in their power to make it beneficial and att active. Fom Yesterday's Evening Gazette. The Base Ball Tonruement.

While our English cousins have their national game of cricket, we have also an athletic game which is peculiarly American. In all the principal cities of America, there are BASE BALLA lubs, of more or less antiquity and of greater

or less fame, according to the physical condition of the players and the spirit with which they have stiered into the contest for "the ball." In our own vicinity we have several fine clubs, umbering from twenty to forty active members.

each. In these clubs we have noticed a tendency to classification, resulting, we suppose, from mutual convenience, as much as from mutual izzte; one club, for example, will include a ma-

jority of Bankers and Bank Clerks; another a majority of Merchanis and Salesmon, and so on.

In all of our clubs, we find the members amongst

mejority of Merchauts and Salemar, and so on. In all of our clubs, we find the members amongst our most respectable and industrongs cliteras. The athletic, out-of-doors exercise is resorted to as a much needed tonic, to recuperate both body and mind, as a contrast from close activity in the counting room, the study or the work-aboy. Surely our young men will be benefitted by irrequent visits to the ball ground, not as spectators, merely, but with beits and bal, to learn the use of longs and muscles, and to for-get, for an hour or two, the monotony of "cent. Per cent." We are glad to notice that the great champion clab of the Allegheay clubs, to play a series of friendly zames on Monday and Tuesday pict, on the fine greue of the West Commons, Allegheny. We would urge upon our readers, in reference to this fine Antarican game. We har from the styre mediator, is precisions for the confort and convenience, of spectators, by crec-ting eligible seats, from which a fine view of the context may be obtained. It is expected that for grames will be played during the fourma-men, the first game on Monday it ten o'clock, the Enterprise being the contextant, the second at three o'clock, by the Linerian boys; on Tues-day meriang, at ten o'clock, theyetteran Allegheny will take up the bat; and at three o'clock, the Enterprise being the contextants; the second at three orlock, by the Linerian boys; on Tues-day morning, at ten o'clock, theyetteran Allegheny will take up the bat; and at three o'clock, the hore cans, will engage the champions. To an ordinary club, this would seem a terribie or-deal; but from the "fame and acknowledged abilities of the Alleghear, little doub can be en-tertained that they will add to their will earned honores. For these games and indge for themselves reference to this fine Atherican game. We retreme to this fine Atherican game. We retreme to this fine Atherican game.
