PAREWELL TO THE COMMERCIAL. We do not like wrang ling between newspapers professing to be of the same faith. There are occasions, however, when silence would be criminal.

One of these arises out of an article in the Commercial of Thursday, in continuation of a previous attack on the late speech WE STEVENS, wherein the conductors of his opinions, and to declare them at variance with the doctrines of the Union Recan party of this State. The same paper of vester lay takes us to account for hav-

We propose just now, however,-as the op; ortunity is a good one-to test the

It is a curious fact, as we shall show now by the record, that while it is not true that the Republican Convention of this State has committed itself at all in favor of the policy Thus upon the President's policy we have

This strong ulterance:

A That the mild and generous method
of reconstauction offered by the President

judgement of this Convention has not been
accepted in the spirit of hanest loyalty and
gratitude, but with such evidence of defiance
and hostility as to impel us to the convettion
that they cannot be safely intrusted with the
indeed right which they forfated by their
fingular, until they have proven their accepsince of the results of the war by incorporaling them in Constitutional provisions, and
bettiring to all men within their borders the

of happiness."

Here then instead of an appearance is a

Here then instead of an appearance is a clear declaration that the President's pollof has failed, and a very significant intimation too, that the rebel States cannot be trusted sgain with the political rights they have forfeited except on the terms of securing the right of suffrage to the negrobut the very feverse of it-and this is all that can be shown in support of the position that the party stands solemnly committed in favor of that policy.

Then as to their treatment as conquered

members of this Union. Agnig, as to the confiscation question, n which it is so charitably insinuated that Mr. Stevens is looking after his own interests, as a sufferer from the invasion of his State.

The fifth Resolution declares that as the late rebellion was wantonly precipitated by the property holders of the South, it is but the war, and Congress should declare as forfeited and rested in the Government the property of all rebels whose estates exceed the sum of \$10,000, and that the proceeds of the property so confiscated should be avplied to increase the pensions of those entitled thereto by the casualities of the war, to pay the damages done by the enemy to loyal cilizens, and to lessen the burden of the

And thus it appears that there, is no one of the points complained of in Mr. STEVENS' speech, which has not the direct authority of the Convention to sustain it. And yet the Commerci I says that MR.

STEVENS' views have changed since the Convention, that he has made "a new platform without skill or sagacity" that he is "disorgan'zer"-"that it is not and never can be in favor of his plan"--"that those who go back with him are on the high road to destruction" "and that others may go to the devil by following him, but it will

Well, it was a blunder, and a sad one, but the result is, that the Commercial quits heart leats, generally, and we are sure that the camp. the Republican Convention of this State has committed itself at all in favor of the policy of the President, but that it has on the contrary, declared it a failure—there is not a single one of the several positions assalled by it in the speech of Mr. Struens even to the stricke of confiscation itself, that is not directly hased on the resolutions of that contrary hased on the resolutions of that man, aver—afterwards sober and respectable, died rich, and; recollecting the formulation of the president's policy we have the following the president's policy we have the following the president's policy we have

There has been for some time a strong dealer on the part of crtain banks in New York to fo ce all the National Banks in the country to redeem their issues in that city or be subject to the annovance of having their notes assorted there and sent home for redemption. The favorite plan was to make the Clearing House of that city an assorting house for that purpose.

The most clamprous advocates of this step were tertain of the old State banks who are still in the Clearing House, but refuse to become National Parks. There was a considered to the first allouday of the October term.

what does our Republican expounder say to this? If it does not know, the Convention at least did, that the doctrine which it supposes to have been endorsed at Harishurg is that only of the rebels and the derstand it, to pay their daily balances at the Charing House in greenbacks, but being unable Chailing House in Recent and a selstant treasurer to get checks on the F. & assistant treasurer cashed, except in National bank notes, they cry against them.

able to get along in the Clearing Rouse as well as the other National banks do. The immense number of national barks ren-

ers "assorting", much more difficult business than it used to be, and this we take to be one of the great advantages of the system. The notes once out, remain out, and pass current as well away from, as at home; and the people are not to but where they come from, before taking ir passing them. The attempt to assort them, in New York is for the purpose of establishing nce more, the old system of putting the country bank leanes at a discount in that city. Such would be its practical effect.

The New York Clearing House, however, has refused to turn liself into an assorting establishment. The resolutions lately passed, in favor of forci. g redemptions at New York, of which we had an account by telegraph, were simply banks, and amount to nothing. The object of he national banking system, of furnishing a truly extional currency will not, therefore, b interfered with for the present.

The Dispatch gives the figures to show tle great increase of business in Erie dur-ing the past year, It says: For the year ending Sept. 12th, 1864, there were exported tion of that great party in America. It counted none of those milk and water gentry, sometimes rather humorously yclept conservatives, either when it polled its ten thousand majority for Lincoln, or when it sent out its ten thousand sons to the battle field to seal their testimony with their blood. It equally despises now the time servers who would betray the cause of the nation by "working the pregnant hinges of the great and expensive victory we have won.

The Commercial prides itself on being conservative, It has a horror of all positive men like STEVENS, who have opinions and are not afraid to utter them. It takes to more from bent of the party, and not of the party, and that instead of his have left that had chopped round under the federal breeze, while he was really defending the faith that was propounded by the light council of the party.

We are sorry for the mistake of our contemporary, but we have been mistrusting for some time that it was getting a little too the fruits of the great and expensive victory we have won.
