From Yesterday's Evening Gazette. The Base Ball Tournament—Match Be tween the Athletic and Lincoln Clubs. This forenoon, at nine o'clock, the match between the Athletic Base Ball Club. of Philadel phia, and the Lincoln Club of this city, was com-Allegheny, and was concluded about one o'clock, resulting in the success of the Athletics, who scored eighty-eight runs against thirteen. The attendance was very large, and quite a number of ladies witnessed the contest and seemed to enter fully into the spirit of the play. The best of order was preserved throughout the game, and the enthusism was well maintained—the spectators frequently joining in cheres, waving of bandkerthiefs, and other demonstrations of applause. The following is the score:

The match between the Athletic and the Allegbuny will begin this afternoon at three o'click. A little after nine o'clock this morning, the members of the Good Intent left the National Hotel, and, preceded by the Jefferson Band, of Philadelphia, and escorted by the Duquesne compary, whose guerts they are, marched to the steamboat Forest City, which was to take them on an excursion down the river. Their line of march lay through Smithfield street to Fifth, down Fifth to Wood, and down Wood to the

river.

A considerable crowd accompanied them, and A considerable crowd accompanied them, and mony, complimentary remarks were bestowed upon their flue appearance and good "get up." Uzele Dave Trippler, the father of firemen in the United States, attracted a great deal of attention. He is the oldest active fireman in the country, having "run with a machine" since 1812, and atill goes to all the fires that come in his way. He is a stursy old boy, and smarter than a good many younger ones.

Shortly before ten the boys marched upon the best, the liace were east off, and they started upon their trip. The weather is agreeable and the prospect of a pleasant time is favorable. Judging from the quantities of "good things" that went aboay we think all pleasant anticipations will be met. This evening a ball, a: Wilkins Hall.

The St. Louis Delegation. The visitors from St. Louis were met at the Monongahela House, this forenoon, by a number of our citizens, and after a friendly chat they started in company with a committee of gentle-men, headed by the Mayor, on a visit to the principal manufacturing establishments of the city and vicinity. They will thus gets aglimose of our business facilities in iron, steel. copper glass, oil, coal, etc. etc., and will no doubt receivesuch impressions as will be alike benedicial to themselves and to us. Of course they can only visit the more prominent establishments, as their time is limited. They can see enough, however, to give them a tolerably fair idea of the character and extent of our industrial pursuits. They have conceived the idea that St. Louis is behind the age in many respects, and that he condition and business might be very materially improved and advanced by comparing thom with those of other leading cities of the country. A similar movement on the part of some of our citizens might result in great benefit to the comment; There is certainly room for improvement in many respects.

A Millionaire Hefore the Mayor.—This morning a diapidated old man, halling from Philadelphia, appeared before Mayor Lewry with a complaint that he had been robbed. In arswer to a question as to the extent of his loss, he said it "was a mere trille, not enough to inconvenience him at ordinary times—only \$4,000." But even that paltry amount was sufficient to be felt in his present circumstances, the remainder of his fortune—a cool million—being just now un sucu a shape as to be not available. The man was evidently meane, and the Mayor, thinking that such a millionaire must necessarily be hear to considerable trouble, sent him up as

a vagrant.

The plan of printing government notes with gold The plan of printing government notes with gold, from which so much was expected, has not protected the jubile, as it was antieptated it would, from counterfeits. Very dangerous imitations of these compound-interest notes of one hundred dollar denomination have been circulated; and the government has issued orders to the Sub-Tr-saurers and to the depositaries of the publis funds, including many of the national banks, not to pay out any of these notes. The publis will do well to rafuse in all cases, until further intelligence is received from Washington. One of the differences between the counterfeit and the genuine is, that the green in the counterfeit is lighter, and not so clear as that in the other notes.
