Attack on Policemen,—At a late hour last night, as officers Cyrus Elsley and David Bennett were calling the hour at "The Point," they were attacked without provocation by four rough, who there served brickhats at them. Two of the assailants encaped, but the officers succeed-ed in arresting the other two. The men arrested proved to be Jas, Cauley and Michael Dough-eny, two notorious "Point Rowdies," The Mayor this morning fund each of them twenty-five dollars and costs.

Diptheria, Ulcetate

of the foundry department. Into a partments has been under the repertision of Col Joseph Kaye for a period of meanly twenty-six years. His position is one of the most insportant in the foundry set d his faithfuiless to the trust report in him is attered inom; the fact of his having that the matter for a means a hourth of the having eld, his position for so great a le The selection of the metal, and the require quantity of each kind of irot to secure the prop-er combination, is a part of his work. The monifs are made in two parts, and when fink-hed, are jainted with a mitture of ground stone eccal and molarsts. This gives them a emooth furface. They are then placed in the overs before men though and thoroughly baked, after which, they are keyed together, and let down it to the pit, ready to receive the molter metal. There cores are flated columns, wound with a strong cord, and the whole covered with a coaling of clay, which is turned perfectly trae. When thermotal is run juto tho mould, the gas which is formed, scapes by means of the groopes Theselection of the metal, and the renul the

a ...

When the motal is run into the mould, the gas which is formed, accapes by means of the grooten or flutta in the core. This takes fire, and burns as long as there is any formed. The cord around the core is burned off by the intense heat, which renderait easy to draw; a process which takes place as soon as the work of the intense heat, which ing. The metal is sufficiently cool, which is in about twenty-four hours after cast-furg. The metal is run into the moulds from the furgaces by means of cast from troughs, lined with Clays and the set of the

with clay Adjoining the foundry and fronting the river winf claysest and the state of Merce medic; also the miniature Monitor places werce medic; also the miniature Monitor and Merrimac. Laths, planing inschines, drills, and all the various paraphabursalik of a machiolati, are to be found in this department. The second sto-ry is used by the pattern makers, and in the third are patterns for every concelvable kind of ma-chinery, the original cost of which probably amounted to over fifty thousand dollars. Ad-joining the machine shop, is the building which contains the lathe for turning the twenty inch arroy, and one for one navy. In front of this building are the socie and which these mon-siter pieces of ord; ance were weighed. They were tuilt by Mr. Keeler, of this city, and are capable of weighing eme hundred tons at one time.

The set of Geostal A. B. Dyer; who is Chief of the Army

Hesty Forgery. A toppe may of this city, respectably con-nected, where tame ve withhold for the present, was positively dejected in the commission of a forkery on a somewhat ext neive scale. He forged s ch ek on the U nich National Bank for \$1500, payable to Messrs Hartupee & Co., the well knewn fourders and engine builders. The imitation was an excellent one, the young man having had a five opportunity, from his intibring had a fire opertunity, from his inti-nate relations with the firm and bis easy access for their accoust, to perfect limesif as to the sig-nature. The money was drawn, but unfortu-nately for the fast youth one of the firm was apprived of the fast that a check had been just tee ited and paid on their account, when the fraud was at once discovered. The lorger was ar-rested in about fifteen minutes after receiving the more exact later to the Masor's off to where he reased in about nifeen mitbles after receiving the morey, and taken to the Mayor's only on Mon-was beld to ball in \$2000 for a hearing on Mon-day The money, we believe, was all recovered, and it is possible that owing to the high standing of the young man, the prosecution will be with-drawn.

drawn. Coroner's Inquest on the Boyd's Hill Murder. The Coroner's Jury, convened on the day suc-

ceeding the murder on Boyd's Hill, and which has had quite a number of meetings since that errible event, met last night at the Mayor's office and concluded the impress. Marachell, one of the manderers, was brought down in irons from the jail, and testified to the jury on his sol-ema oath, as to the truth of the statement of his confersion as published. The jury thear rendered the following verdie: "That the usknown man came to his death. In the Eighth ward of the city of Pittsburgh, on Foreire by deligned by deligned and finance on the statement of his pare." office and concluded the inquest. Marschell,

the following verdic : "That the u-known man came to his death, in the Eighth ward of the city of Pittsburgh, on the night of the 23 of August, 1865, by vio-lence administered by August Frecke (or Fricke) and Bu jamin Bormardt Marscheil, said vio-lence administrate by August Freckeit, said viointerest of the source of the lence and injuries causing his death, being per-petrated by means of a knife and iron bar, or some other similar d adly weapon." on hand. on hand.
