POR STATE SENATE:

JAMES L. GRABAM, Alloctory.

GLASS, Pittsburgh A. Danker, Spaler Township,

Hon. J. K. MOORHEAD has our thank for documentary remembrances. THE TRUE POLICY.

Some good people may think that the controversy in which we have been en-gaged with the Commercial is only a war of rival newspapers, in which the public can not be expected to take much interest, and that the time is a very unseasonable one for divertisements of this sort, pending a State election, and with an important session of Congress approaching, at which all these matters of difference will probably be disposed of. This is not our view. We entered upon it reluctantly, from the absolute necessity of the case. When we found that paper,

under professions of extraordinary zeal for the Administration, not only indulging in insidious attempts to undermine the car dinal principles of the Union party of this State, but openly and unreservedly assailing them, as atrocious and abominable, at the very time when the party had emblazoned them on its ensigns, and was in the field battling for their support, we felt that it had become absolutely necessary to its safety to expose and disarm the assailants, whether they were sentinels who had been detatched from their duty, or traitors who had stolen into our camp under the guise of poor and Ignorant. Otherwise we must friends. We did not fear any attack from have a terrible conflict of classes. Judging from the way we had heard some generally loyal and sensible people talk who read that newspaper, we concluded that it was about time to awaken them by showing that there was death in the savory compound, that they had rather come to reliab, because it was recommended. by expressions of great tenderness and concern, and we are satisfied that we have rendered a good service by tearing off the mask

and putting the people upon their guard. , however, another class of people-and they are the mere politicians generally who never like to differ with the Dispensers of public office who say, "Oh. it will not do to take any exception to the policy of the administration now, because you will only drive it late the arms of the

This we know certainly could not be in abcordance, with the wishes or opinions of the party that has whipped there rebels and elected him. The question however, is one that belongs only to Congress, with which he high properly speaking, nothing to do. That party has alarge majority in the next Congress and may counteract this purpose, life trists; and that majority shall prove faithful to the people, whom it represents a Euppose. However, that the personnel of the people, whom it represents a generally, silent, while the fersident is processed gradely in his own way in the absence of Congress, and a portion of the party that does not think as it do the people, who was to be a consequence, when Congress meets, the tolis will have been accounted to the people was the constitution of the people was and a portion of the persy that does not think as it do the constitution of the people was and a portion of the persy that does not think as it do the constitution of the people was a personnel. the tolls will have been woven around us the tolls will have seen woren around us, and we shall find ourselves bound hand and fool, with our loaks shore, and every Conscretive member of the Weed Seward stamp overy Democratic politician who has a keen scent for the spoils, and would not quarrel with those who dispense them, ready to go in for betraying our country on ti e argument that the people have indersed the plan, or at least found no fault with it. There is no surer way of misleading the President himself or turning over this whole President himself or turning over this whole described to this disposition exclusively, than the short-sighted policy of avoiding the procession of a difference of opinion of a difference of opinion with the can have no other result than to deceive him as to the true state

THE HIMSOLICAL COUNTY ADVERTISEMENTS.

THE WAR IS SOUTH AMERICA.

The period of the product of the company of the period of the bily sound the playm to the people, and let their Representatives understand what will be expected of them. The reasonable pre-sumption is that the President will be as loth to quarrel with the opinions and wishes of the people of the loyal States, who elected him, and are still the masters of this nation, as any of them here can possibly be to get up a quarel with him. Let the Press and public conventions of the party but keep allent, as they have been too generally disposed to do while these things are going on and we are lost and he is lost, beyond a hope, if his intentions are really such as are so generally imputed to him, because ongress will then only meet to register his will. Let them but speak out, and the lawnaking power of the nation will be able to rectify his errors, and save him by substi-tuting their will for his. Among w Johnson has no friends among the rebels whom he is pardoning, or the copperheads of the borth who are endorsing and endeavoring to calole him. If he can be made to think otherwise after his expelence, he will not have even the apology of JOHN TYLER for the unhappy blunder that he will commit. With his record of loyaly and heroism, we do not believe it possi ble, but they only are his true friends who have the courage and honesty to remonstrat kindly against the indulgence of an undue confidence in the men with bloody hands

who have already betrayed the highest trusts, ruthlessly starved and butchered our loyal soldiery, professed no penionca ade no acknowledgment of guilt, and only failed to destroy this nation after plunging it in a sea of gore, because it proved too strong for a treachery that has no parallel in history. HENRY WARD BEECHER ON THE NEGRO. Mr. BEECHER preached on Sunday last, morning and evening, on the subject of the negro. He held that being strong and powerful, we must nurse, and help, and edu-cate, and foster those who are weak, and

tian, if the old Heathen feeling is to reign, each extracting all he can from his neighbor and caring nothing for him, society will be lined by classes, as by seams, like batteries, each firing breadside after broadside, the one upon the other. If, on the other hand, the law of love prevails, there will be no ill will, no envy, no disturbance. This law, If properly carried out, will settle the most troublesome of our home questions, the condition of the freedmen. For a hundred and more years they have been the victims of a relentless oppression. Now they are free, and the question comes up, who will take care of them-their old masters, the blacks, or we? The people, he says, have settled it that the masters shall not. The north can, but ought not. The only

MAIRE -The majority for the Republicans in Maine, last year, was 16,283; now it is 22,832. The House of Representatives will consist, this year of 184 Republicans and 17 cemocrats; last year it was 120 to 31. The reason for the change is to be found in the fact that last year the democrats stood upon a feal unmistakable party platform, while this year they abandoned their old creed and tried the dodge of professing to be patriota. The dodge didn't win, it of public opinion and to make him the feems. It disgusted the sincere democrats master of the next Congress. Let the Press | and didn't fool anybody else.

He speaks of them as "these prople who have no hemically vindicand their manhood on the battlefield, where in as-sisting to save the life of the Republic they have demonstrated in blood their right to the ballot." Could the case be more strongly put than it is in these golden words? How contemptible sounds the counse! of mere politicians, compared with this manly and statesmanlike declaration. Away with the advice of the counsel of him who, when alive, spoke as one having authorify and not as the Ecribes and Pharisoes, and who, being dead, yet speaketh

THE COAL FIELDS OF WESTERN PENN-SYLVANIA. - We see a calculation going the rounds of the press, purporting to have originated in "a Plitsburgh pager," (i) the all-like that the surface vein of coal in West-grayant had crossed at another point. Flores ern Pennsylvania averages eight feet, and will yield 88,516,480,000 fons of coal. This calculation is made by assuming that there are as many acres of coal as there are acres of surface—a manifest error, at least one ourth of the area of the western part of he State being devoid of this year of coal. It will not, besides, average more than five, astead of eight, feet. We say this, not for the purpose of bel tiling our coal resources, but of stating them correctly. These resources are ample one 1gli, and do not need to exaggerated.

Too LATE. -COL DAVIS, the Democratic candidate for Auditor General, denies that he is responsible for the very scandalous articles in his own paper, the Doylestown Democrat in the dark days of 1804. The denial comes too late. Con DAVIS WAS mustered out of service nearly a year ago, and has never put in this denial until now. The slience of a year speaks more loudly in approval of those articles than this denial does against them, given only after he has become a candidate. If he had never beer nominated the denial never would have been made.

THE Springfield (Mass.) Republican cites he Philadelphia Press as a Radical Republican organ. The Press is anything but that, just now. When Congress meets, if the Radicals should prove to be uppermost, it may take the Radical side, but it does not speak for the Radicals at present.

THE Post and the Commercial, both of which profess to be friendly to President JOHNSON, omit publishing the lucid and convincing address of the Republican Convention. Why do they not publish it? MERCANTILE LIBRARY LECTURES. It will be seen from a glance at our advartis-ing columns, that the Lecture Committee of the Young Men's Mercantile Library and Mechanics Institute, have sirendy arranged the programme for the approaching lecture season, and secured the lecturers. Editors Gazette:—Allow me to inquire whether the George 8. Hays, who heads the Copperhead ticket, is the same George 8. A TERRIBLE CASE of human death from cattle plague has occurred in England, at Sudbury, in Suffolk Mr. Robert John Plumby, a veterinary surgeon of that town, made a partial post mortem examination of the carcass of a cow which had been shot in consequence of being affilted with the prevailing disease, in doing so his shirt sleeve became saturated with blood. It is supposed that some of the virus of the diseased beast entered his system through a boil he had on his arm. A short time ago another veterinary surgeon died from the bite of a carrion fly.
