It covered the surface, giving it the appearates of Oil breck, during a poed freahet in like time of a general smash up. We shall not estimate it in this report, shut merdy easy it can be numbered with the infract. The superintendent, Mr. K, will inform us imme-diately after gauging the tanks. I will then send the eract amount. No. 112, of the same farm, is just being tested. The indications are good. No. 5, Williams' reterve, promises to be a good well, but will have to be tubed again be-fore doing mich, as the seed hag is not tight. Fifty one leases have been sold on the Black-mer farm, and many wells are going down. Well No. 21s down 700 feet. It has been tubed and is pumping with fair indications. Rome oil has been obtained and owners are sanguine. Well 6, 20 and 30 also promise well.

Dr. Boardman, of Philadelphia, Becretary, This American Christian Commission pro poss to operate somewhat after the fashion of the Christian Commission, which has accom-pliebed so great and glorous a work. It hopes to units all good people in a concentrated and wignorus effort to save the millions of our land. It will bring to bear every pessible agency and appliance of the Gospel. It is not sectarian in any sense of the boword; it is emphatically Chris-tian. This is evidenced by the character of the delegates from the various parts of the country. About three hundred were in subndance, re-presenting a score of different desominations, and embracing the names of soms of the most distinguisate meetings were hield each ereen-ing in the churches of the city, and addressed by members of the Convention. light and manufacturers are selling ahead of production. The dry goods market is very strong, for both the Foreign and domestic trade, and is impro-vit g quite rayldy. There is a sharp demand for goods generally. A largonumber of country merchants are here, and there will probably be a fair business during this month. Speculation has recently apı ang up in real estate. The demand russ on the unimproved property above the Gentral Park and between Fifth and Eighth avenues. Lots are changing hands frequenily and prices are steadily on the rise. The following is to-day's business at the office of the United States Arsistant Treasurer : Total receipts 60, 459,400 25. Total payments \$12, 483,203,63. Balance 564 928,373.01. The re-ecipts include for customs \$430,000, and on ac-count of loan £203,500. Throughent the past; month there was a very steady market for weol, with slightly improved prict. The amount of domestic flores and pulled wool sold was qu'te large, bus without any speculative movement. Fries, however, advanced too little to change quotations. The stock has become light.
