The object of the amondment before the house is to give Foreign Missionary Bishops the same privileges now enjoyed by domestic Missionary Bishops, in lating a seat in the House of Bishops, and in being elligible as diocesian Bishops by a vote of a majority of the House of Bishops, and standing committees.

Mr. Binney offered the following resolutions:
Resolved, That the address of sympaty from the Synod of the Caradian Church lately sent to this Convention by the House of Bishops, with the expression of their great satisfaction thereat, and which was concurred in by this house, did most reasonably and truly express the trust that as the original cause of separation between the different borilons of our church had now crased to operate, the feelings of brotherly love and zeal in support of the same hallowed principles which formerly united all members of our church in one body, would reasert their claim, and triumph over external causes which had kept us apart.
