We have reason for asserting that the English capitalists in interest of the Atlante and Great Western road have sailed, without making any diffilted arrangement respecting seaboard connections with their line. The interviews with the Eric Company sough by the Atlantic and Great Western delegates have done nothing more-than to make known to the parties mutually, their respective views, but they may bereafter issue in more definite proposals. The propositions made to the Eric company are not such as could be accepted, but it is possible that modifications may here after be made which would result in the connection of the two roads, either in the way of amalgamation or of a running arrangement between separate organizations. His Pardon Quile Probable.

NEW YORK, Nov. 1 .- The Tribune's Washing on special says: The trial of Jeff. Dayls, anhounced in a New York paper as positively de termined on, was true in August, but is not true now. Public opinion has changed sloce then. It is said as a fact that any trial in a Southern Southern States unanimously desire his parlon; that the majority of the Democratic party hold; the same opinion, and now that the leaders of the radical wing of the Republican party have expressed the same wish, it is believed it will be taken for granted, that a majority of the nation are opposed to his punishment.

Revival of the Richmond Enquirer Revival of the Richmond Enquirer.

New Yorks. Nov. 1.—The Richmond Saguirer is revived by Messrs. Tyler, its late proprietor, and Mr. Coleman, and has a salutatory in which its editors say that the cause for which they contended has gone down forever, and adding: "The oath of allegiance taken by ourselves, in common with our fellow-clitzens, has a far different significance than the same oath could daywhad before the unactited questions had been decided by the arbitrament of war. Now we acknewledge, all silegiance first to the Union: Before we held obediened to be due first to the State. The same honesty and silecrity which take the sons of Verginia brave the dangers of testic, and enfer uncomplainingly the hardships of four years be war, will make them faithful to their oath of allegiance." Departure of Sir Morton Pete and Party. New York, Nov. 12 The Scotta has salled, taking Sir Morton Peto and party and seventy thousand dollars in specie.

To-night is the three fixed by the musicians employed in the theatres in this city, for demanding, for the second time, higher wages. Some of the theatres, pressibly all, may be without music, as in case of a refusal of their employees to succumb, they will probably refuse the army alone since the beginning of the re-

out music, as in case of a refusal of their employees to succenab, they will probably refuse their services.

The Commercial's Washington letter says: A company of gentlemen, mostly of this city and New York, have been organized to construct a raffrond between Alexandria and Fredricksburg, under a charter obtained from Governor Pierpout's legislature, when that body was in session at Alexandria. This will be an important connecting link in the travel North and South.

dated Montromery, October 18-h, and signed by
Bolling Hall. Gov. Blone, James H. Clinton
and Wm. O. Beldwin, whose advice is as fol-

The result of the recent war, so disastrous to the South, has been a revolution of your entire labor system. The 400,000 blacks who were recently your slares and subject to your will in every movement, are no longer under your iddividual coutrol. Hitherto you have been accustomed to direct their labor by your sovereign, emandatt—now you can command it only by contract. JAMES WILKIND,

The black man is dazzled if not intoxicated with gew freedom suddenty thrust upon him, while the white man is more or less oppressed with the thought that this element of his wealth is such troval him. The ignorant black man has in too many in tames foller into the delusion that freedom means exemption from manual labor, and the white man, discouraged by the indocence and in many cases the insolence of the negro has exhaulted by the tother containing the suppliers of the suppl
