There are also rumors that the Secretary will re-commend such legislation as will make it im-perative on the National Banks, to redeen their bills at New York, and will force many of them to contract heir circulation.

Or pos-sibly the official organ, when it talks of "rapid reconstruction," and "interests and sympathics in common," may not have in view the spread of republican principles. -Gov. Should Oil creek and the Allegheny river wells produce for the month of October in the same ratio as the preceding months of August and Saptember, the aggregate of the month will probably reach, and may exceed, 340,000 barreis. It is not itkely that this large produc-tion will be continued through the winter, as a large amount of oil is now produced by pump-ing—the winter months being unfavorable for obtaining oil in this way. It is more probable, however, that the pro-duction for the year, ending on the first day of April, 1866, will amount to two million barrels of oil, on which the well owners will have paid the United States government two millions of reconstruction and suffrage. He thinks the time has not yet arrived, when any one of the Seceding States can, with safety, be permitted to re-establish its State government. The Gov-ernor, in the course of his letter, remarks :

Let it be used with pavental kindness, and in the temper of conciliation. But hold on to the power, and in the fear af God, is it be used. It was bought with the hold of more than a quarter of a mil-lion of heroes and patriots who have given up-ther lives for their courtry. There-fore I thus no reconstruction will be successful now. of oil, on which the well owners will have paid the United Batas government two millions of dellars tax. The average price at which this oil has been sold for the first half of the year will not exceed use dollars per barrel. Large quantities, at some wells, have been sold as low as \$250 and \$9 per barrel. I will here state some facis, connected with the oil business, and often some sumarks, that may be regarded by oil men and others interested, as not out of takes.
