Lease and Manager.....WM. HENDERSON The Boston Traver gives the following XTENSIVE SALE OF DROPOSALS FOR SUPPLIST TUESDAY, NOVEMBER 14, 1865. particulars of the insurrection in Jamaica, received from a correspondent in that country:
Jamaica is divided into three districts or counties, for court purposes, tamed Surrey, Middlesex and Cosmoore, and the laland itself is again divided into several parishes.

The present difficulty originated in the Parish of St. Thomas-in-the-East, which is situated, at the Eastern and of the Island. Por a great many years the authorities have experienced considerable opposition in attempting to collect the taxes from the negroes, who are meatly squatters, holding from two to fifty acres of land, which, by ordinary industry, could be made valuable, and the natives secure a good diving and have plenty to sell and obtain money to pay the taxes with. The objection to paying taxes dates back to 1834, and seemed to increase with each year. His congregation consisted of five persons beside himself, and assembled in clip of New York. His congregation consisted of five persons beside himself, and assembled in himself, and assembled in himself, for he was heard to murmur, as in a dream; "The treaty with Belgium! yes, read me that sixth clause again." But at last a perfectly peaceful demise crowned the long and and ascreen healthfulness of his life; he sank away gently, flickered away like an expiring lamp, and then "went out" rather than "died," and they hindly knew in the death chamber at what exact moment the great statesman ceased to be among the living.

His Instact of public business was an instance of his energetic manner of dealing with facts when he had once got hold of them. He received a Brockes Hall the Irish deputation upon the cattle disease, though he was very unwell, and obliged to recline upon the sofa all the time; but he at once acted upon the wishes of his visitints. If he would have kept to that sofa he might have-lived; buthe was a constant formor to his dectors by reason of his energy: although, when he once promised to obey them, he kept his word, as if it had been pledged to the House of Commons.

This New York concern is making strentions efforts for the propagation of its sent ments, in shidopation of the meeting of Congress. Funds are supplied freely, partly, doubtless from England, for the publication and its tribution of free trade documents. It behooves the friends of American industry to be up and doing, in order to counteract their efforts. Our manufacturers cannot hope for higher protection, it they are too inert, to press the master. WEFFING BY STEAM.—A singular discovery just been made in Milan. In one of the fan-bourgs of that city was a statue of St. Madelolne; from which time immemorial, had mirac-niossly-poured its tears on infidels and heretics, after the success of the Italian revolution; it had kepti-topionaly. It had happened that the venerated monument needed repairs and it was. Decessary to remove the statue. What was the surprise of the workmen to flud that is costained a little reservior of water, which was heated by means of a farnace concealed in the base. The water, in evapouating, rose to the head of this status, when it condensed and reached she two little tubes of the cycs, when it excepted and rea drop by drop over the checked. with blossoms.

The scheme for reducing the female clarical force in the Interior Department will goes on, and it is believed the Treasury Department will soon follow salt in the reform. Ladies were originally employed in the Treasury Burean during the war when able-bedied men were wanted in the field, and many purifoit soldiers were benefitted by such employment of ther female relatives, when they otherwise would have been obliged to support. Disabled, soldiers are now coming back and making application by accres, and economy prompts their employments since it is estimated by the chief-of some of the bureaus this but half the present, number of clerks would be required it all were male: (2nd door from Fifth.) noti CALL AND SEE THE GENT'S KIP BOOTS At 81 Market street.

The London Protetype says: Mr. Simpson of Beimont has one of the greatest curiosities in nature that we have heard of in the genus hoving. It is a calf, with two heads, four cars, four dyes, two tails, seven legs, three house on one leg, and all resting our one hedy. Therewoon arises the question whether that wretched calf has more "weat" than "woe."
