VARIOUS ITEMS. Wholesale VARIOUS ITEMS. Sourcerpriments in what is termed an imal grafting have recently been described by Dr. Berlin a paper forwarded to the French Acad-erry of Science. He says, "that if the tail of a rat be cut off, skinned, and then inserted under the skin of the same ani-mal, it will continue to live and grow as before. If a fracture, is effected, the fractured parts will join again exectly as they would if the tail were in its natural place; in short, both obysi-ologically and pathologically the grafted part follows the general laws of nature."
