His theological studies were commenced in 1837, at Flushing factions. Long Island, under the Rey, Ir. Market. His theological studies were commenced in 1837, at Flushing Institute, Long Island, under the Rev. Dr. Muhlenburg one of the most able educators in the United States, having tent out from his college, beside Bishop Kerfoct, Bishop Odcuheimer, Bi. hop Bedell, of Onio, and many other eminent scolors and theologicas. After finishing the tenter course, Dr. Rechot was appointed charlin and professor of Impunges in this college, which was subsequently merged into St. Paul's college in 1843. From this college he was called to the Presidency of St. James' college, Maryland, of which he was the principal founder! This institute, founded in 1843, he conducted with great success, making it one of the most lopular theological sceninaries in the United States, and sending from it many eminent classical and theological sceninaries in the United States, and sending from it many eminent classical and theological sceninaries in the United States, and sending from it many eminent classical and theological sceninaries in the United States, and sending from it many eminent classical and theological sceninaries in the United States, and sending from it many eminent classical and theological sceninaries in the United States, and sending from it many eminent classical and theological sceninaries in the United States, and sending from it by the rebeilion, upon which he accepted a call, which had been majetuly remodeled and brought up to its present its 2, standing as an educational institution.

There are ten better educators, and none more which he completely remodeled and brought up to its precent then, a standing as an educational institution.

There are few better educators, and mome redistinguished for administrative ability, than Dr. Kerfoot, who has devoted his whole life to the advancement-of-education. His great ability in this respect may be indeed from the fact that in the late general Episcopal. Convention, at Philadelphin, a report, withen by him, upon schurch education, "I was received with so much favor that, within half an hour after it was read, seventeen thougand captes of it were eased for and ordered to be published.

The Grinders Again—Still Further Developments—Man Drugged and Robbed.

The Leader of Bunday says that daring last week another case in which Mrs. Martha Grinder, who has become notorious, is alleged to have administred poison, has been daveloped, the particulars of which have not yet been published. In this case George Grinder is said to hay been informed, are as follows:—About a year ago George Grinder came down the river to this city from Oil City, or an oil fat, in company with a man amed Allen. On their arrival, Allen lequired of Grinder where he could procure a boaroing house, when the latior informed him that he could accommodate him. The Grinder were then living in Paney's court, off Hand street, and in accordance with the arrivance of the field of the source of the street of the safe that warman inght issue for the arrival of the definition of the wind was too week to survive the laboration of the surgered to this city from Oil City, or an oil fat, in company with a man amed Allen. Immediately after dricking it, Allen staggered, apparently as if he had been drugged. Next day Allen told him: Grinder that he had lost one thousand dollars some time during the night, and asked ber it she had seen anything of it about the her is she had seen anything of it about the her is she had seen anything of it about the fact he had one hunored and firty dollars left. After piacing it in a pocket-book, he requested her to saw it inside the lining of his vest. This, was very kindly performed by Mrs. G., and Allen resteen under the impression that he had secured at least a portion of his money. Some time afterwards, however, Allen had occasion to examine his pocket-book; and was surprised to find that all the money had been abstracted, but when or how he could not ascertain. He again applied to Mrs. Grinder, but she protested entire linnocence. He them made inquiries of the neighbors respecting the character of the Grinders, with 's view of procenting them, but failed to obtain any information, and finelly let the matter drop. Boidlers' Meeting A League to be Formed On Saturday evening a goodly number of re-turned soldiers assembled at Wilkins Hall, ostensibly for the purpose of hearing a report from the committee, appointed to prepare and have rigued a memorial to Congress, on the subhavorlgued a memorial to Congress, on the subject of the equalization of bounties. General J. B. Sweitzer was chosen President, and Mr. C. E. McKenne, Becretary. The Chairman, of the Committee reported progress, stating that about twenty-two hundred signatures had been obtained to the memorial, and that no report had yet been received from the county districts.

Case of Trover.

Case of Trover.

Information was made before Alderman Shain charging Levi De Roy, pawnbroker, Smithfield street, between Third and Fourth streets, with unlawfully retaining property pawned with him and using it for his own gain. The circumstances are as follows: Lasj April the wife of an engineer in the gunboat service was reduced to straitened circumstances by the delay of the government in paying her husband. Needing a sum of money very badly she took her busband's over-coat, valued at seventy dollars to the establishment of De Boy and pawned it for one month, receiving ten dollars. for which she was to pay two dollars and a half interest. At the end of the month, not having enough money to redeem the coat she went back to the office, paid the interest and renewed the pawn. Some two weeks after her busband een her a sum of money when she sgain visited the office, and on tendering the sum supposed to be due, was cooly informed by the boy that he had parted with the article. The lady then applied to an attorney, who also tendered the amount and demanded the coat, and was informed to the rame effect. A few days since the husband arrived at house, and this morning made the information. De Ry was a rerested and gave ball for a hearing on Monday next at ten o'clock. The law tompels all pawborohers to retain goods in their possession one year.

A Mean Act Punished.—An able-bodied German named Frederick Grubb, employed a little boot black to "shine his boots," and after the job had been done, end-avored to put him off with five cents—half the usual price. The boy took the five cents, and expressed his indignation by calling Grubb "a big, mean Dutchman." Grubb, not relishing the impudence of the boy, slapped him on the head and knocked him over. The boy appealed to the Mayor, when Grubb was arrested, and fined five dollars and costs, and compiled to pay the boot black the remaining five cents. Served him right.

Consum neuarble disease, by every one, puysicians as well neuarble disease, by every one, puysicians as well as those who were unlearned in medicine—espe as those who were unlearned to the condition and made many wonderful cures, and the demand increased so rapidly that I determined to offer them to the public and devote my undivided attention to lung disease. In truck, it was next to force to it, for people would send for me far and the force of the force of

tients attituted with itung direase, is to convince them to-awoud taking little colds. Amony thinks it they take my medicines they about out my think it they take my medicines they about out my thinks the now-access they may be in that way. These a great error, for if any one will read over the many curse which I have published from times to time, they will find that most of them were those time, they will find that wonet of them were those out of the thinks and the could not take cold are confined to their beds and could not take cold and the cold the lungs were to be the playlations salviss heir patients to go out and the cold they cure by so doing!
