John Link and John Smith were placed on trial for riot, John Frennholtz prosecutor. The allegations were that the defendants, at a late hour in the night, went to the tavern of the prosecutor, in Lawrenceville, and asked for admittance, for the jurpose, as they said, of getting "drinks." They were refused admittance, and after come parior, began stoning the house, and acted riotously. The cased was on trial at adjustment. Thos. Howard, Esq., appeared for the Commonwealth, and W. C. Mooreland and J. J. Siebenick, Esq., for the defense.

Homicide, Case Again Continued. We have stated the fact that John M. Kirk-patrick, Esq., our Ex-District Attorney, went to Washington county to assist, by request, in conducting the prosecution of John Leunox for the murder of Robert L. Morrow. The case had been once continued, and the District Attorney of Washington county, Boyd Crumrine, Esq., calling it up at the present term, stating that he was ready to proceed, Hon. Wm. Mont-gomery, of connsel for defense, moved for a second continuance, on the ground of absence of material witnesses, presenting an affidavit embracing the legal grounds. The Court (Judge Ewing,) granted the continuance with reluctance, stating that at the next term the trial must proceed, under any circumstances. The motion for continuance was resisted by Manager and Mana trial must proceed, under any circamstances. The motion for continuance was resisted by Mr. Kirkpatrick and Mr. Ruth, the ex-District Attorney of Washington country, and by the first named, gentleman with considerable energy, but the affidavit in support being full and sufficient, under the rule of law, the Court could not properly do otherwise than allow the motion.

Mr. Wilson, on behalf of the Sheriff, asked permission to remove the prisoner to the Alliegheny county jail, for safe keeping, considering the Washington county jail insecure. The Count entertained the application, but doubting its jurisdiction in the premises, held the matter over for consideration.

- Lamp Presentation. An interesting affair came off at the Leslie House, in New Castle, Pennsylvania, on Tucsday last. The well known firm of Messrs. A. Hutton & Co., proprietors of the extensive hardware establishment in that place, in token of their appreciation of the amiable naster of the Eric Express, between baggage-master of the Eric Express, between this city and New Castle, presented him with a beautiful raifroad lamp. On one segment of the globe is a cut of a locomotive and dender, in which are engreved the initials, P. Ft. W. & C. R. R., and on the opposte: segment there is the following inscription: "W. H. Smith, with the compliments of A. Hutton & Co." The presentation took place in the ladies' parlor of the hotels. Rev. Dr. Douglas, being in town, at the request of the generous donors, made the presentation address. Mr. Smith responded in appropriate terms.

Hard on the Coroner.—The Allegheny City
Times of Treeday, speaking of the accident and

We met him in the street, yearchys, and he

he only knew what the verdict of the jury was.
Probably the "local" of the Times can come to
the reacus, and throw some light upon the subject.

Henry and Ann Amelia Bennett, prosecuted

by Rosanna Wright for assault and battery, had a hearing before the Mayor yes erday afternoon. The prosecutrix alleged that the defendant, hav-ing a "rub of sauff" in her mouth, spit in her face, and afterwards knocked her down, Bennett, the husband, looking on, and, beside en-couraging the encounter, interfering when his wife was getting the worst of it. The women, wite was gitting the worst of it. The women, seems, had a regular "rough and iumble," and when a bystander endeavored to separa's them, he experienced considerable difficulty, finding Mrs. Bennett's feet entangted in Mrs. White's hoop skirts. The Mayor patiently heard the case, summed up the evidence, feetded that each party were equally in fault, and, as juries in the Quarter Sustions do frequently, adjudged that each party pay one-half the costs,

Shirt Store Robbed. On Tuesday night or early Wednesday morning, the shirt store of W. C. Elliott, on St. Hair street, was burglarlously entered and a considerable amount of goods carried off. An entrance was effected from the rear, the thieves forcing open a back gato, after which they climbed to the roof of the kitchen, entered a window leading into a hall, and proceeded down stairs to the store. Air. E., providentially, had removed a greater portion of his stock in the evening, to a room in the second story; and thus saved them. No traces of the thieves have yet been discovered.

The chairman stated the object of the meeting, after which he introduced Jonathan C. Fincher, Eq., of Philadelphia, former editor of Fincher's Trads Review, who delivered a lengthy and interesting address upon the subject of shortening the hours of labor from ten and twelve to eight hours per day. The advantages to be gained by reducing the hours of daily toil were forcibly presented, and some of the objections noted and answered.

The speaker was frequently applanded by the sudience, and the movement will doubtless become very popular among our workingmen, Un motion, a committee was appointed to draw up a series of resolutions expressive of the sense of the meeting. The following gentlemen were appointed on that committee. Hessar. W. L. McNair, William Weit, Henry Schaffiet, Thomas Riton and W. G. Bracey. They retired and shortly afterwards returned, reporting the following preamble and resolutions, which were adopted unanimously:

WITHERLY, We the working men of Fittsburgh, believe the length of a day's work required by the present system too great, inasmuch as the whole time is consumed by labor, according to the working man no time for recreation of labor saving machinery has so greatly facilitated mechanical operations, that the working of long hours tends to over production and the consequent throwing out of omployment of many whose families depend on their labor for support, and, whereas, the working man is an intelligent being, requiring time for intellectual cultivation and improvement. Whereas, The working men is an intelligent being, requiring time for intellectual cultivation and improvement to 'qualify him for the duty of society and citzrenship, which can only be gained by the reduction of the hours of labor; therefore,

A 'Dangerous Read--Accident to a Hearse. Attention has frequently been called to the wretched condition of the road leading to the Methodist grave yard, in Lower St. Clair township, and after repeated catastrophies, we are glad to observe that active measures are being adopted to render it in some measures secture. Hitherto there has been no protection to carriages on or near the brow where the road is built on a steep declevity, and where accidents usually occurred, but a strong fence is now under way and the shocking seenes of last week will scarcely again be enacted.

the bas of case, warge, ancer the time for unloading the coal had expired, which proposition Mr. Finney agreed to. Time passed away, but no coal was delivered, and when the parties met again there was some talk about a suit for damages, perhaps only intended as "built;" but Mr. Brown took it in carness, and intimated that if Mr. Finney where to a spend money in that way, he was perfectly welcome to do so, and that he would find it an up-hill business to make anything off him. The suit was entered, however, and came on for trial on Monday in the Common Pleas. Capt. Finney proved the contract, and also that it had not been fulfilled. The defense was that the contract was not bond fide; that it was marely "bird," and that some of the conditions named had not been fulfilled—by the plaintif. The jury, however, after hearing the arguments of counsel, and the law from the Court, found a verdict for plaintiff for \$3,000, with interest and costs. George P. Hamilton, Eso, appeared for the plaintiff, and Messrs. Woods and Bergwin for defendant. Barroom Brawl-A Young Man Shot.

At Young's Restaurant, corner of Smithfield street and Virgin alley, last night between eleven and twelve o'clock, an affray occurred, which resulted in the wounding of Jacob Speck, a young man employed as barkeeper. John Rafferty, feed store keeper, went into the saloon and partook of some oysters, after which he went to the bar to get a drink, inviting he went to the bar to get a dribt, inviting Thomas Flood, a resident of the Third Ward, to partake with him. While drinking, they began to discuss the Mayoralty question. Flood asked Rafferty who he thought whild get the nomination, Lowry or McCarthy. Rafferty replied that McCarthy would beat Lowry, whereupon Flood called him a liar, and drawing a revolver struck him with it on the nose. Rafferty caught Flood's hand, the one in which he held the pistol, and it the struggle it was discharged, the ball striking Steck, the bar-keeper, in the abdomen, indicting a severe but not dangerous wound. Two charges of assault and battery with intent to kill were preferred against Flood, one by Rafferty and the other by Speck, and he was held to ball in each case in the sum of \$2,000.

speculative excitement produced by our initate currency, is the fact that recent large purchase have been made of coal lands for account of cap tallets resident here and in Philadelphia, and the tallets reaident here and in Philadelphia, and that these movements have imparted some activity to securities based upon that kind of property. It is said that lands which, two or three years ago, commanded not more than one or two hundred dollars per acre, have for months been firmly held at one thousand dollars, in some localities. This may be an exgeration, but the process has certainly gone on very quietly and very steadily, and some large capatallats have invested a considerable part of their means in this way. This is probably the pricipal cause of the recent general inquiry for coal stocks at our stock exchange. Investors before parting with their money would do well to ascertial whether they are buying land or only a lease for a term of years. For on this depends in no small degree the safety of their investments.

put the lights out in the yard. The watchman, on discovering that the lights were extinguished, aroused the Sheriff, when it was found that Leunox was not in his cell. The Sheriff, after examining the jail yard, supposed that the prisoner had made gool his escape, and telegraphed the fact of his escape to the police of this city and Wheeling, got out an advertisement offering a reward for his re-arrest, and was about retiring to bed, at three o'clock in the morning, when Leunox was discovered in the act of cutting his way through the jail yard wall. He had accreted himself in the sink, while the officers were searching for him, and went vigorously to work to knock a hole in the wall. He would soon have succeeded in his effects. He was secured and placed under guard. —Nearly all the Boards of Traile and Chambers of Commerce in the country have passed resolutions recommending Secretary McGulloch to pursue his policy of a general contraction of the cursue his policy of a general contraction of the cursue. This question will come before Tongress this winter, and a strong citori will be make by Wall street speculators and castern bankers to overrule the Secretary of the Treasury by urging the passage of an amendment to the banking law increasing the issue of national bank notes to 800,000,000. Under this state of Affairs, commercial men are undecided what to do They are afraid to buy, lest the currency be contracted, which will bring prices down, and they are affair to sell, lest an expansion takes place, in which event prices would advence—The following comparative statement shows the average condition of the leading terms of the Philadelphia Banks for the past and previous week.

Provisions in Louisville.

The provision market is steady at our quotations, with a decided improvement in stocks. Meas pork is selling at \$23, and prime meas at \$57, per bbl. Clear sides are active at 22e packed in literes. Green hams command 18c, and shoriders literes. Green hams command 18c, and shoriders a beautiful propagation business there has been, as far, but porty packing business there has been, as far, but prices at which feeders attendily refuse to pay the prices at which feeders attending refuse to pay the prices at which feeders at each to be that prices must recede at no distant dar, and packers are holding off for its arrival. We notice by our exchanges that packers in various sections of the country are Jying idle from the same cause. There seems to be no good reason for the present high prices of hoggs—with abundant crops of corn and mattit wout seem that prices should be largely below present figures. The season is rapidly advancing, and it cannot be many weeks until the problem will be solved, and packers and farmers agree upon prices.—Democrat. Provisions in Louisville.
