The halls of the : wo hous the Senate, and an equally hearty wish aces remain unchanged in their arrangements commanied the approval that the House should finish what the Senate had so well begun. But even his powerful influence is insufficient to wesn these men from their fainity. The oppressor never will be gen-erous, of his own accord, to those whom he has oppressed; and if Tennessee, with loy. al blood ranning in her veins, cannot b brought to toe the mark on so plain a proposition as this, all the hopes entertained that the Southern States would voluntarily secure to the freedmen their rights, mus all, Reconstruction has evidently been begun too soon, and must be postponed un ill the men who now control the South are enlightened with some glimmers of common sense. The indignation which the President has expressed at the blindness and folly as well as wickedness of the men who thus lead the South into wrong paths, will be shared by the whole country.  Bildto Bildt bon as he had the assurance of the falling of the Confederacy, ceased his course, he was not a pirate and therefore it was impossible to try a pirate and therefore it was impossible to try him as such. In a contrary case, piracy being a crime signisat all nations, the power which captured hum, or to which he surrendered him-self had the right of trying him. It sppcars that the English cabinet viewed the matter at in the former case, liberty having been given him to go and come without molestation. We can, as well as the London Telegraph, be aston-ished that the American Navy, being no further occupied by the blockade, could not capture this corsair.
