Local actices at such rates as may be agreed The papers are full of wars and rumors o wars with Mexico, growing out of the recent collisions on the Rio Grande. The Mexican ist) papers assert that their gunboat was fired into by men in the United States uniform from the Texas side; whilst our people say that the Imperialist gunboat was the first If there was any anxiety on either side for a war between ms and Mexico, a sufficient cause could undoubtedly no found in these events; but as both are anxious, for the present, as east, to avoid a conflict, we do not anticipate that these difficulties will lead to anything worse just now, than angry crimination and recrimi-

It cannot be disguised, however, that as long Imminent danger of a collision with our forces that will lead to war. We have a large force on the Rio Grands, and every one of the boys in blue, is an arriver annual to the result of the boys in the result of the result o blue is an ardent sympathizer with the Mexican Liberals. It may be, too, that many of them are spoiling for a fight, and longing for a moras. Their ardent sympathies for the Liber constant manifestations of it is no doubt very galling to the commanders of the Imperialist orces. We do not, as we have said, expect any implications to grow out of the recent; but the visit of General Grant to General Sheridan looks like business; and as the tinder is all ready, and waiting for the spark to ignite it, some very slight circumstance may precipitate us, almost any day, into a coln involving the most serious results.

ported a splendid carpet from Europe to cover the floor of the Representatives' Hall is justly exciting remark. If it had occurred under a Democratic administration, it would not have been wordered at; but it is a most extraordinary

thing to occur under an administration pledged to the polley of pretection to American industry. The Clerk is a Pennsylvanian, too, which makes the draught all the more litter. Were there no American carpets goods enough to be soiled with the dirt of Washington and the tobacco Juice ejected from the busy jaws of the members? SENDING THEM WEST. -The New York Her-

add says:

The health officials of our port have decided to permit all the passengers, both cabin and steerage, of the steamship Atalanta, who show no cholera-symptoms, and who design going to the West, to leave the vessel. Those whose cases are considered doubtful, but in whom the disease has not yet developed licelf, will be sent to Ward's Island for further detention. That's all right. If any of these liberated

passengers should carry the cholera with them o the West, what is the odds? New York will be saved, and let the west take care of herself. NASHVILLE.—The reign of terror still continues at Nashville, and the city is still beleaguered by robber hordes. The three murderers caught are to be hung at once; but those still at large laugh at such a triffe as hanging three of their number, and keep on robbing and mur-

The news from Matamoras, though of no later date, seems to confirm the report that the imperial steamer Antonio had been fired upon Imperial steamer Antonio had been fired upon from the Texas shore. The statement, though appearing in the \*Ranchero\*, the Imperialist paper, is explicit, to the effect that on the 7th inst., ins the Antonio was pushing her way up the liber under heavy fire from the Liberal forces, she grounded, and when in this plight received a fire from the opposite side; and that the heatife party were dressed in the uniform of United States soldiers. Two marines were wounded. The \*Ranchero\* anserts that the Antonio did not return the fire, and laments the occurrence as threatening the peaceful relations of Mexico and the United States. It will be remembered that the reported firing by the Imperialists on some barges that had broken loose from the Texas shore, and supposed to be Yanker ansor hostile engines of some kind, was subsequent to the attack on the Antonio, on or about the 14th inst.

No Inchass of National Bank Capital.—
To set at rist all the rumors with reference to an inercase of one hundred millions in the National bank capital, which, it is reported, will be recommended by the Sepretary of the Treasury, we can state upon the very best authority that no such increase of the bank capital will be recommended, either by the Secretary or the Comptroller of the Corrency, except upon the express condition that the increase be in five-tyenty bonds purchased with one hundred millions of legal tenders, to be withdrawn from the currency and replaced by ninety millions of rational bank notes. This will result in an actual reduction of ten millions in the currency.—
Washington Dispace.

Mn. Collect Endered with letters from all parts of the north, commending his recent speech in Washington, and assuring him that the people indorsed his position. Senator Sumer has added his compliments in a letter, in which he says that although not going as far as the (Sumner) does, there is the ring of music in his words. The Union League at Richmond parsed resolutions indorsing the speech. Ir is reported that Maximilian of Mexico has received a letter from the Emperor Napoleon rebuking him for lack of energy.

COTTOX,—The English papers report a better prospect of cotton next year from India and Egypt than at any previous time. The conditions of raising and transporting the staples in both these countries are greatly improving; and if the price could be kept up to the present denue for ten years longer; a permanent and sufficient supply for the European market might by that time be obtained. But it, is here that the peril and the fear arises. For if cotton can be again raised in this country at anything near the old price, or even at the rate of fifteen to wenty centra a pound, then neither the Indian nor Exyptian prowers can compete with us, and that prosperity will collapse.

with us, and their prosperity will collapse.

A REMENT meeting in Paris in aid or the enfrachised slaves of America was crowded to such an extent that above 1,000 persons weat away, not having been able to find seats. M. Laboulaye presided. Mr. Leigh and Dr. Sanderiand gave the meeting several interesting facts as to the present condition of liberated regroes. M. De Pressenses, M. N. De Strittlaire and the well known member of the Provincial Government; the returne barrister, M. Cremieux, made eloquent appeals to the audictoe, repronching their countrymen with having done little as yet in the cause for which the meeting had been called.

JEFF. DAVES NOT TO HE REMEASED.—The grounds bring taken by the Southern press and many of their leaders, that they have committed no crime, but had the right to make war apon the Urion, has annoyed the President no little, and there are Ludications, for the last day or two, that his purpose to let, Jesf, Davis of will be abandoned. The pressure from every Congressman who has seen him is very strong for justice; they demanding that it shall be placed beyond cavil that a millium of men have not shed their blood in vain; that it can only be done by the reachfold. Weathington disprach. done by the scaffold.—Washington dispatch.

STAMPED ENVELOPES —By an arrangement made by the Postofile Department at Washington, we learn that on and after the first of December there will be ready for delivery stamped envelopts of the denominations of nine, twelve, eighteen, twenty four, thirty and forty cents, designed to cover mail matter, to be carried outside of the regular mails. These envelopes will be furnished to express and steambat comparies on application at the different postofiles, and will prove of great advantage to our business men in their correspondence with all quarters.

and will prove of great advantage to our business men in their currespondence with all quarters.

The Hon. Thomas Corwin, lately U. 8, minister to Mexico, being in New York, was lately introduced to one of the English railway magnates recently travelling in this country as being an Ohioan. This term evidently misled John Holl, who looked for a moment a good deal puzzich; however his face suddenly brightened, and seizing the hand of Mr. Corwin, he expressed his happiness at making his acquaintened, and seizing the hand of Mr. Corwin's complexion being rather Indian.

The United States rolling-mill at Chattanoega, built by the Government during the war, and recently sold, has been handed over to the new prichasers, the Southwestern Iron Company. Mr. Robb, formerly of New Orleans, now of Winslow, Lanier & Co., bankers, New York, is president, and Mr. Ahram S. Hewett, & Co., Trenton Iron Works, stressurer. Mr. Thomas Yardley, of Pottsville in this State, and who has been ledentified with these works from the beginning, will remain in charge as manager and sufferintendent.—Phil. Press.
