he New York Herald, from Washington, Nov. 20th, says it is understood that an effort will be made by the New York delegation at the organization of Congress to divide the elerical honors with Pennsylvania, which has so long eajoyed a monopoly of them. House will undoubtedly be made. Several candidates for the clerkship are being talked over by members already here, and it would seem from their earnestness that Mr. McPherson has more to do than simply walk over the course. The name of Richard A. Sherman, of Oneida County, the reas and usys Clerk of the House, is mentioned in this connection.

The officers of the Pension Bureau are convinced that there are a large number of persons in New England and the Western States who are entitled to pensions, as licensed agents of the Bureau, who are entirely unreliable. All agents for pensions are required to hold licenses from the Commissioner of the Bureau.

The surgeon having charge of the freedmen in North Carolina reports that during the last three years there were great inroads upon the blacks by yellow fever and small-pox. The mortality at Fort Anderson, one of the largest cologies in the State, was unprecedented, during the rage of the four last springs; over two thousand dying in less than two munths. Now, however, their sanitary condition is continually improving.

A special to the World, from Washington, says: General Fallierton, who has just returned from Louislana, reports the planters unable to obtain sufficient amount of laborers, and could employ several thousand more than there is in the State. The citizens of Louislana are repairing the loss sustained during the war, and take every little interest in political or military movements. Real estate, rents and all branchers of business has been resumed with a degree of energy unusual in that portion.

It has been strongly infimated to day that the Clerk of the House intended to piace the names of the Tennessee disegration of Congressmon elect on the rolls on the first day of the seasion. It is asserted that Tennessee is in the same category with other Southern States, and if this intention is carried out an Ohio member will move to strike out the names from the roll. Those who favor the measure say that Tennessee is fully restored to the Union, and it is therefore entitled to immediate representation. Nearly all of the Tennessee Congressmen elect are here.

The Times' Washington special says there will be seven contested seats in Congress. There is the case of Stricks will be for the Strick of which a strong coatest will be made. Mr. Brooks is the sitting member. In the 16th Pennsylvania district there is a concest between Mesars. W. H. Koontz. Republican, and A. H. Coffroth Democrat. The probability is that the case will came up at once, and that Koontz will be given the seat and the case referred to committee on elections. In the 21st Pennsylvania district, Smith Faller, Union, contests the certificate of John L. Dawson, Democrat. In the 13th Ohlo district, the seat of Columbus Delaney, Union, is contested by Mr. Follett, Democrat. In the 3th Ohlo district, the seat of Columbus Delaney, Union, is contested by Mr. Follett, Democrat. In the 3th Mihol district, the seat of Columbus Delaney, Union, is contested by Mr. Follett, Democrat. In the 5th Michigan district, the seat of Mr. Lowbridge, Union, is contested by August as C. Baldwin.

The credibituals of the members are very slow on arriving, and it is doubtful if the clerk will be able to make up his roll is time from the credentials received. There is no contested case this time for my of the territories. The certificate of Governor Goodwin, the delegate letter from Orizina. has Feen received.

Not more than turee or four of the members elect from the Southers States have arrived. They syidently prefer to await the 4-sue at home and save expense. Among those here is Joseph Barker, the well

A special to the World from Washington sava:
A gentleman arrived here to day from the Rio

He says they numbered about two thousand,

He says the number of strests is mainly owing to the great number of soldiers that have been mustered out of the military scrytce in our midst, who find themselves without employment, and without means in many instances, have become violators of the law, and have fallen into the hands of the police, but the greater number of arrests have been of persons who had followed in the wake of the armies for the purpose of plunder and robbery, and now are forced to prey upon our citizens. There are, also a large number of convicts of Southern prisons now at large, who are fourd to be among the most desperate characters that visit our city.
