Central shating Park.—We wish to correct an impression that has in some manner got abroad, that the Central Stating Park was a failure, as it would not hold water. This is not the case. We believe there has been a mollitile difficulty experienced in gotting a sufficient supply of weter all at one, sait would deplote the fash to see an extent as to certously incommerce some of the citiz one, who would thus be restricted in their supply of water. The Park will rective supplies of water on each Saturday night to til it is fail, which will probably by on cest Saturday night us til it is fail, which will probably by on test Saturday plabs, but to the meantime there is a sufficient supply now on head to cover the eather surface of the post, and in case of a hard freeze it would be ready to receive skaters. We would also meation in connection with this matter, that single teckets will only be sold to holders of senson tickeds except on carrival nights. A splendid brass band has been engaged for the entire season. The Park havas is complicted, and the place is now in charge of the superintendent, a gentleman well known to ear citizens, who will give his entire time to the convenience of the guests.
