THE NEWS.

A Western writer says that much attention was paid to improving corn as it given to grapes a hundred million bushels might be added to the annual crop.

The impression of these articles is getting absolutely unbearable. The hotel usually opens to her husband getting drunk and beating her.

A small boy in La Grange had a hole blown in his head by the explosion of a gun. His mother carried him to a place of safety, and a doctor was called.

A young lady has recovered \$500 from Deering, Ill., for losing a walk in such a condition that she broke her leg. If an ordinary female is worth this much, what value would a jury put on the superior member of a household.

Minister Hays, it is fairly rumored, had "national privileges" in the palace of Queen Catala. What privileges these can have seen which were "national" in that place for private parties is anxious to know.

A Lockport (N. Y.) man, called a woman in the County Court of Lockport, on Wednesday last, for involving the charges of a child. It was charged that the boy had been and killed a valuable horse.
