The Fifteenth Amendment.

The entire number of States is now, we believe, thirty-seven, and the ratification by three-fourths of the States of the fifteenth amendment, is necessary to its becoming a fixed portion of the Constitution, and an absolute law. Florida having ratified the amendment, and being only the 25th State that has done so, the votes of three more States are required to give it force, as the requisite two-thirds of the whole number are twenty-eight. These three are already practically secured by the terms of the last reconstruction act, which has received the approval of the President, and under which Texas, Virginia and Mississippi are compelled to accept the amendment prior to their perfect re-establishment as members of the Union. There are also some other States which, upon the reassembling of their Legislatures will ratify the act, making han the countial two-thirds; so gress is held, universal suffrage will be de clared the law of the land, and all male citizens of the United States, over the age of twenty-one years, will be entitled to vote, without regard to the accidents of race or

Hurrah for the Fourth!

A movement is on foot to-day to get up a demonstration on the 5th of July (Monday) and a petition is in circulation to raise funds to carry out the programme. It is proposed to have a balloon ascension during the day, also foot and horse races, and a grand dis-play of fireworks in the evening. We hope our citizens will subscribe liberally, as on the amount raised depends the extent of the entertainment. A celebration of this character was gotten up in Petroleum Centre last year, and it was a complete success. The attendance was large, notwithstanding the demonstrations made in neighboring towns, and our business men reaped a handsom harvest. Let us, this year, do better than ever before. Republican State Convention Re-Nomination of Gov. Jeary.

The Republican State Convention assem bled at Philadelphia yesterday, and nominated a ticket to be supported at the fall campaign. The re-nomination of Gov. Geary was nearly unanimous. The ticket is as fellows: Governor, John W. Geary; Lieut-Governor, J. C. Lee; Treasurer, S. S. Warner; Supreme Court, Luther Day; Attorney-General, Col. F. B. Pond; Board of Public Works, Richard R. Porter.

THE JAMESTOWN CLOTHING STORE. - One of the permanent and prosperous institutions of Petroleum Centre is the Jamestown Clothing Store, which enjoys a liberal patrounge because the stock of goods is composed of the latest styles of clothing, gents furnishing goods, hats, caps, etc., which are sold at prices cheaper than the cheapest .-Mesers. Lammers & Alden are practicamen in the business, and are well pested in the leading styles now before the American public. "An examination of their goods will fully sustain this assertion, as do all who buy of tuem. See the summer styles.

Of the scandal that may be caused by a "false report" this is an instance, related in a French paper. A wag, passing through a dark railway tunnel, in a car full of ladies and gentlemen, amused himself by imprinting a kiss-a sounding, sonorous kiss-on the back of his band. General sensation, and angry inquisitive glances all around, when the car reached the light.

Hon. H. C. Johnson has accepted the invitation to deliver the oration at the 5th of July celebration in Titusville.

The first lot of five, ten, fifteen, twenty five and fifty cent notes were issued yesterday. The new greenbacks will make their appearance about the first of July.

Remember Skiff & Gaylord's Minstrels at the Opera House to-morrow night.

THE STRIKE.-The A. &. G. W. R'y Brakeman who were, during last week, on a strike for \$2,00, in place of \$1,75 per day, have gone to work at the old price, with the understanding that on and after the let of July they shall have \$2,00.

RECOVERING.—The young man, Calvin McCoole, who was severely injured in the breast and left arm, by being caught in the bull wheel while drawing casing from the Me-Cres well on the Coxton Farm, on Saturday last, is improving rapidly, and is out on the street to-day. He is tenderly eared for in the family of J. S. McCres.

BROOK TROUT. -Some of the finest brook trout of the season was received at the Rochester House this morning, and will be served in the restaurant. They are fine specimens, and after being cooked under the direction of the Steward, are richer still, for Sam is a professional caterer, and the culinary department of the establishment speaks volumes. Miss. Susan B. Anthony thinks that married people should not sleep together. Being a miss we would like to know how it comes she is so well infermed upon this topic. If she bases her argument upon physical laws she is probably nearly correct, but if she reasons from her ideas of faith and affection she is wide of the mark.

A man named John Bowen has been ar rested and ledged in jall at Milford, Pike county, Pa., as the party who placed obstructions upon the track of the Eric Railroad, which caused the terrible disaster at Carr's Rock in April, 1868. He confessed his guilt.

Mrs. Thompson of Joliet, Ill., has had a large share of calamitous bereavements .-Some years age one of her sons was accidentally killed; another was blown to pieces in the late war; not long since, a daughter who had just graduated from school, was drowned while on an excursion on Lake Erie, near Cleveland, and on Tuesday a grandson was instantly killed by the cars.

Great efforts are made to secure northern emigration in North Carolina. An agency has been established by a Northern be of which every member of the Legislature is said to be a member, and several men already have come from the north and purchased farms near Raleigh, at about \$10

Oil is also being found on the line of the Pacific Railroad. Philadelphia Press of Saturday last says:

road, whose restless energy and vim than made his name and presence familiar to nearly all the States of the Union, announces the discovery of petroleum in Summit county, Utab, near the line of the road .-Bottles of crude have been brought to Omaha for examination and analysis, and the result will be looked for with unusual interest. Without doubt, this discovery is one of the most important in its consequen ces of any made for some years. It will effect the commercial interests of more sections then one. A preliminary analysis of some of the oil has been had, and it is declared to compare favorably with the best of the Pennsylvania district. A competent oil expert has given the opinion, from actual observations made, that oil exists in paying quantities from Bitter Creek 786 miles to Evanstown, 856 miles west of Omaba; and from the Utah Mountains south the Wind River Mountains north of the Union Pacific. It now only remains for men of enterprise and capital to open up a section which should prove as valuable to Nebraska as the Venango district to

Another Drugist's Mistake.

The New York Sun, of Monday, says: Coroner Keenan was called late on Saturday evening to take the ante-mortem deposition of James Strappe, of Thirty-third street and Seventh avenue, who was at that time suffering in Bellevue Hospital of polson, "taken by mistake for medicine." Strappe went to Dr. Amand of No. 142 Bleecker street, to get the proper remedies for his case. Amand gave him some medicine which having been taken by Strappe, produced such agonizing sensations that he went for relief to a drug store in Thirty. third street. The druggist gave Strappe an emetle, and it was found that the stomach Mr. Webster Snyder, the indefatigable contained areenite of Copper,or Paris green. was hurried to Bellevue Hospital, where every attention was paid to his case, but the poison had taken hold, and he died Monday morning. Coroner Keenan has ordered the arrest of Dr. Amand.

> Mr. Pigott, of the Doublin Irishman, who secently visited the Fenian prisoners is England, draws a fearful picture of the sufferings they were forced to endure. The most barbarous nations would shrink from the long continuance of such tortures .-O'Donovan (Rossa) is suffering from severe pain in the back from the hard-labor which he is forced to perform. For thirty-five days he was kept in a dark cell with his hands manacled behind his back. He was not released to take his thin "perridge," which was left on the floor of the cell, and he had to lap it up like one of lower animals. Capt.
