Petrol. Centre, Pa. 1869-11.

A Movement to Advance—We do not know
how much truth there is in the story, but it
is reported that the Rev. Charles Rogers of
England, is about to get up a subscription
for the erection of a monument to the mem-
ory of Adam—the father of mankind. A
committee, to be called the "Grand Interna-
tional Adamite Monument Association," is
to be formed, and the monument is to be
erected on the supposed site of the Garden
of Eden, in Mesopotamia. The expense, no
doubt, will be great. It is the custom to
make a monument never smaller, and gener-
ally much larger, than was the mortal
body of the hero whose immortal deeds it is
intended to commemorate, and as there is
no authentic tradition that Adam was 230
years of age, his monument cannot, in common
justice, be less than 1,000 feet in all. It
will be seen, therefore, that a penny subscrip-
tion from each of the descendants of
Adam would amount to a goodly sum—and it
is impossible that such a sum could be raised
without contributing to the relief of the
poor, and hence enough over to pre-
sent a handsome testimonial to Dr. Rogers.
Who has been the first and best answerer that
it was easy to wipe away values from his at-
tention, he has been the first to leave the
memory of Adam to the oblivion—a
man whose name, name, actions, death, and
spiritual inheritance are constantly on our
lips—without a commemorative stone to tell
the stranger who could appreciate it what
he had done. A great many have had their
names written on the monuments, but I should
not be surprised if you were the last, and
that with all the records he had many
visitors. When the monument is completed
it will be a great pleasure to us to have
our names on it, and if you will enlarge our
plan to include a monument for Dr. Rogers,
we will be glad to supply the same for you.

A NEW ARRIVAL FROM LONDON
—A new arrival of all sorts of goods on the
Petrol. Centre and Allegheny River. The
arrangement made for an ordinary
weighting about one hundred pounds placed
on the top of the cow-catcher. A rod attached
to the top of the cow-catcher is fastened to
the left side of the cow-catcher, and
is placed in the position in which it is
shown. The bell is suspended loosely, and
receives the weight. This device is
designed so that all parts of the surface are
equally exposed to view. The advantages
of this arrangement are a convenience and
also a rapid inspection of the condition of
the engine, and a better preserving a
space on the left. In case of an accident,
the engine can be moved, and the
arrangement can be moved, and the
bell can be moved, and the arrangement
can be moved. The arrangement is
designed to be used in the position in
which it is shown. The arrangement is
designed to be used in the position in
which it is shown. The arrangement is
designed to be used in the position in
which it is shown.

The sign of a Western clergyman crossed
by a pack of cards which fell from
his pocket during his colloquy by saying
that he had a bad letter's coat.
Mrs. Brewster has been reading the
health officer's weekly reports, and thinks
that it must be a very bad malignant disease,
since as many of it as all the rest put
together.
There was some difficulty the other day at
a wedding in the oil region, when one of the
guests asked the bride to marry him, and he
said "Yes, I will be your wife's husband."

A man's name was written on the monument
to Adam, and it was the name of the man
who had the monument erected.

A man's name was written on the monument
to Adam, and it was the name of the man
who had the monument erected.

FOUND

A large amount of property found
in the oil region, and the
proprietor will give the same
attention to his guests.
