Scientific men attribute the late severe summer and autumn weather, the storms, floods and earthquakes that have prevailed in various places, to the influence of the sun, which, they assert, is in a highly agitated state. It is also asserted by them that the body of magnetic light shooting from the sun in every direction will, by the beginning of next year, have extended far enough to exercise material influence upon the earth, and then it is said we may expect the phenomena will be observed such as have not yet come under the notice of human race.

A lady caught her husband breaking her hoops. Two hours afterwards, the unfortunate man was seen at a drug store purchasing hair restorative.

It matters not what a man loses, if he saves his soul; but, if he loses his soul, it matters not what he saves.

It is stated the subject of the resumption of special payments is being boldly advanced by General Garfield and other western members of the House, and it is considered probable that the discussion will be opened in Congress.

A suit for slander has been commenced in the supreme Court of Onondaga county, by Mr. Paul Gerard, of Washington, D. C., against James Gordon Bennett, Jr., Douglas A. Levin and Samuel Glenn, of the Evening Telegraph of this city, laying his damages at \$20,000. The slander consisted in connecting him in a disputable manner with an extortion named Meemolse Belle, who he alleges is his affianced wife. Mr. Glenn was arrested and gave bail.
