Our Member at Washington.

There are a few facts connected with the recent establishment of a Post Office on the Story Farm, which places our most worthy Congressman from this District, the Hon. C. W. Glifilan, in a not very enviable tight before the citizens of that locality, and es. pecially those who aided by their ballots in placing the aforesaid Hun. C. W. G. to the distinguished position which he now holds.

But to the story. The Story Farm. as all ore well aware, is situated about a mile below Petroleum Centre on Oil Creek, and has a population sufficiently large to send out on an average 450 to 500 letters per week, which justly entitled them to a Post Office. The anil has to be brought to this place daily by carrier for mailing, and what did not come here for posting had to be sent to Tarr Farm, a mile or two below, thereby causing a good deal of trouble and inconvenience to those doing business by mail. Those living on the farm bid been endeavoring to get an office established for a long time, and naturally looked to Hon. C. W. G. aforesaid, Member of Congress storesaid, and whom they had belped elect, and naturally supposed would be the one to secure to them so trifling a boon, in return for the aid lent him in securing an Hon, to his name. Knowing the locality perfectly well, and the need of an office there, the necessary papers were forwarded to him at Washington, only to be returned after a lapse of several months denying the request, the Hon. C. W. G. at the same time claiming to have used his utmost (!) influence in favor of it. Of course the matter fell through for the time being and when it was placed in the bands of Hon.

Fur the Record. Persons having the good of sinners at

heart have long contemplated a movement in the Oil Regions which shall remedy the numerous evile complained of and existing among its citizens, do away with vice, bring in the reign of virtue and industry, restrain wickedness in high places and make the wilderness blosso u as the rose. Who would not aid in this. No good citizen should hold back. It is openly confessed that all remedial agents so far tried have proved useless. You have an expensive State Government, expensive schools, and tell it not in Gath publish it not in the streets of Askelon, expensive preachers too all over the country and still all manner of unblushing wickedness prevails until good men are disbeartened because none of these things are a sure anchor. Look at what you call your churches. Can they deal with these iniquities? No. in spite of their pretentions they acknowledge they are not the sait of the earth when they finding the ir systems fail shrick aloud for Young Men's Christian Associations and such like to do work them. selves if they are true ought to. Then is there no baim in Gilead? Yes. Where? I will tell you but you must sink your prejudices and judge calmiy not according to the lying reports of envious enemies bu judge righteous judgement and so it shall be meted out to you.

The "church of latter d y saints" the most persecuted is the only ark of safety. In this lies the remedy and all we ask is a fair field and no favor and if we do not bring all these things to pass then say down with it, down with it to the ground. The dignituries of the Church of Latter Day Saints are coming to the rescue. They are going to occupy and possess. Stations hage already been organized at Scrubgrass, Titnsville and other villages and now we hope to add Petroleum Centre to the list, and duly authorized agents will be there this week who will give a public lecture setting forth the claims of the Church. Notice of time and place will be given Receive us with open arms and let us form a phalanx strong as the sun, fair as the moon. and terrible as an army with bannert. Hot ever one that thirsteth come without money and without price and help is route the hosts of Satan and save alive all the rantaukerous sons of men.

> AQUILA ROSE Traveling Elder.

The sleighing is excellent just at presentand the sound of sleigh bells can be heard in all directions. In this connection our citizens should bear in mind that J. J. Mc-Crum, Titusville, has a large assortment of Sleigh Bells, Buffalo Robes, &c., which he is selling at remarkably low prices.

Mr. Geo. Kennedy, the engineer who was burned at the fire near Kane City on Sunday, was more severely injured than was af first supposed. It appears that he was bare braded at the time and in crossing the floor of the engine house his head struck the derrick lamp, which was suspended from the ratters, upsetting it, the burning oil running down his sleeves and on his bead and breast. His arms were fearfully burned; hair singed off, and otherwise seriously injured. He was attended by Drs. Wynne and Christie.

A good time may be expected at the first of the series of Wednesday evening sociables, which comes off at the Oil Exchange Hotel, to-morrow evening.

The Syracuse, N. Y., barbecue on New Year's day passed off with great colat -nothing more was done until quite recently Clinton squaro was packed with spectators, estimated at from 20,000 to 30,000. Severa S. Newton Pettis, of Meadville, who with ex-Mayors, and other prominent citizens, very little exertion succeeded in securing wearing white aprons, waited on the crowds the establishment of the office at that point, of applicants for food. Five oxen (two of to the intense gratification of the residents them rousted) and five thousand lonves of bread were distributed among the needy

## Steam Applied to Oi

The London (Ont.) Free following article on Steam oil wells:

"It is well known that oil ing pumped for a time, g their yield of petroleum, 'play out.' In some cases sa the place of oil, and in others oil and water gradually the working of the well become ble and is abandoned. Vi have been advanced to account nal decrease of the petroleum but the one most generally ac true solution is, that the para n the oil gradually accum rock, and clogging the veics, the flow of oil to the pump. sylvania oil wells this diffic overcome by the application this light, volatile fluid being the well, and by its chemical a the coagulated parafine, and t the oil veins. In the Ennishi Petrolea, steam, at a high ten been applied to exhausted cases, with marked success Noble applied steam to his " well which had the effect of in and his adjoining well to a con teat. The proprietors of the tried steam to their well with success. An inch gas pipe from the boiler down the well through which steam was c high temperature, the pressur pounds to the square inch o toller. The return of the ste vented by an appliance calle which being placed around the a depth of 420 feet, effectu steam from rising. The stea was continued day and night when the pipe was withdrawn put to work. The effect was The yield of oil which before th cess averaged but lifteon barr e four hours, at once rose to : fifty barrels in the same time, tinued so during the past two signal success of this steam ducing ab ut a dozen other w try the experiment. We belie of the idea of applying steam ing of exhausted wells is due : hart, of the firm of Engleha refiners, of London. This d have an important effect upmany used-up wells-that is, attained are not of a temporal This, however, can only be to

there, and to whom the honor belongs. Now the question naturally arises to the in the crowd.

minds of the people in this region-"Do we want a man to represent us at Washington who has not sufficient influence to get through so small a matter as this, or if he has will not do it?" We think not.

Hon. C. W. G., with an amount of pure "cheek" hitberto unknown in this section. puts himself forward for a re-election to an office which he has not filled to the satisfaction of the people of this district, and when they learn, as can be proven, that he had not influence sufficient to secure the passage of so small a local measure as this, but that s gentleman from a neighboring county had to be called in to put it through, we opine to the belief that he will receive "a-stay-nt. home-ticast" for an indefinite period.

Our townsman, Mr. Jas. H. Smith, has heen appointed a Notary Public by Gov. death, and thirty-five more or less is jured. Genry, and received his commission yester- The damage to property from this cause is ray. A botter appointment could not have estimated at \$72,720 in New York, and been made.

The store of J. Baum, which has been closed for the past week on account of the death of his father, is opened again, Mr. B. having returned.

Stand St. OKO

ANOTHER MISER GONZ .--- Carl Valentine, of West Hills, Long Island, died auddenly a few days ago from disease of the heart. He was very wealthy, but it is said lived a most abject and miserly life in an old and defective building. On searching the house it was found void of anything to cat or drink and without a beadstead or bedding. He usually slept upon a pallet of straw in one corner of the house. He left no will He is said to have been worth \$50,000.

The danger of life and property by the adulterated kerosene oil now so generally used is shown by the fact that out of one bundred and twenty-nius fires, more than one tenth of the number in New York and

Brooklyn last year were caused by kerosene. By these fires ten persons were burned to

\$9,430 in Brooklyn, while the entire loss by fire from all causes was \$35,416,403. Totel insurance, \$9,923 672.

increased from \$12,000 to \$17,500.

lars a month extra.

## The Great Biliard C.

San Francisco, Jan. 9. -The match between Messrs, Deery the champion diamond eue and witnessed last night at Mechan by a large multitude. The bi for several days past showed th would be closely contested, and ly but little odds were offere Dion appeared to be the favorit

At the ninety-eight luning his greatest run and pocket Dion missed. Deery then ra out.

The result was bailed by cheering by the thousands o The game was played cantion player taking doubtful chances bly shooting his ball into Deery retains possession of the and wins the \$1,000. The gar at S:20 P. M., and ended at Deery scored 1.500 to Dion's 1.
