Oil Creek is raging.

Umbrellas are all the fashion.

Drilling has not commenced as yet on the new wells to be put down on the McCray Farm.

Teaming is quite lively.

A new well was struck on the Lamb farm, near Pleasantville, on Saturday last. It is yielding 20 barrels a day.

Rumors on the street to-day and yesterday of the striking of a new well near Titusville, which flowed no telling how many barrels per day. The rumor had no foundation in fact.

Last night and nearly all day to-day the gentle rains have descended, knocking the hopes of those who anticipated such a nice time sleigh-riding, leaving in stead vast quantities of the article familiarly known as "mud." More a comin'.

J. A. Foster, of Tidouts, will a policy of life insurance to one of the demi monde, wrote a letter stating that he had "gone to that bourne," etc., etc., was missed, and instead of being found a cold corpse on the bosom of the Allegheny, turned up taking his regular nip at Parker's Landing. Such is life.

A new well was struck on the Metropolitan tract, near Alleghenopolis City on Friday last. For the first 24 hours it pumped 36 barrels of oil. It is now doing about 18 barrels per day. Is owned by Mr. A. A. Shrum.

Well No. 2, Lockwood, Bates and Fisher lease, same tract, was completed a few days since and is yielding 10 barrels per day.—Was torpedoed a day or two ago and the production materially increased.

Youthful sport went to Petroleum Centre Friday evening to visit an "affinity," or something of that sort. About midnight he was extricated from a gutter, airily clad in a "butterfly tie" and two or three other unimportant tridles! The business didn't scribble him.—[Corry Blade.

The young man came from Corry for the purpose of purchasing butter; got into bad company; got drunk; wanted to fight; met his "affinity"; got a severe beating from which he suffered great Pain. Sharpen up your Blade.

The friends of Dr. T. H. Stuart of this place, surprised him in a very pleasant manner yesterday afternoon, by the presentation of an elegant Silver Tea Set, purchased at Isham's, and consisting of seven pieces. The Dr. returns his thanks as follows:

CARD.

Having been made the recipient of a magnificent and costly Silver Tea Set, at the hands of Messrs. Jas. Robinson, G. W. Wilson, David Yanney, Sam'l Reynolds, Robt. Dickerson and others, I hereby acknowledge the "sell" and return my grateful thanks for this manifestation of their friendship and esteem. Hoping that their lives may be so lengthened that my children's children may have an opportunity of ministering from these silver cups a soothing draught at the last hour of their long and happy lives, I again return my best wishes and many thanks.

T. H. STUART.

TIDOUTS OIL TRACTS.—On the Tidouts and Warren tract, the Company well has continued production steadily.

Messrs. Fisher & Cushing having a new well on the Janey lease, that is producing 100 barrels per day; it is numbered 4. Their No. 5, on same lease, has just struck the 3d sand with every prospect of being equal to No. 4. The other wells on this tract shows a steady production.

On the N. Y. & A. O. C. tract, Mr. Parshall's wells have exhibited a notable increase; his Nos. 1 and 3 are pumping five and forty barrels respectively. His No. 4 has suddenly increased to 200 barrels; ten days ago it pumped about 100 barrels of riley oil. On drawing the tubing the standing box was found to be broken. It was replaced by a new one, when the well immediately began pumping at the rate of 200 barrels of green oil and so continues to the present writing.

On the Economy Oil Co's tract, the wells are steadily producing, without material change.

On West Hickory, no new strikes are reported, although several wells are approaching completion, nearly ready to test.

Mr. G. B. Gilson is putting down a well one mile back of the station at White Oak, which has reached a depth of 220 feet.—Journal.

JANUARY 10.

John P. Vincent et al. vs Marine Oil Co. Taylor and Mackey for plaintiff, Heydrick and J. S. McCalmont for defendant. The plaintiff sued the defendant for damages arising from a fire at Pithole in 1867. The plaintiff alleges gross negligence on the part of employees of defendant, whereby a fire occurred; the employees of defendant used oil in making a fire in their engine, and that the engine was left for a short time and in the mean time the place took fire, that the sparks from the fire set on fire plaintiff's well. The defendant's well was situated on the side of the hill above the plaintiff's at Pithole. On trial.

A paper in Portland, Me., tells this little story, which is too pathetic to cause a smile: A little girl about three years old lost a dearly loved sister not long ago, and as the Christmas season drew near she began to miss her playmate more than ever, and at last, on going to bed one night, prayed audibly to God to please give her a little bedstead for Christmas, and let Louie, up in heaven, make a patchwork quilt for it.

Seven seamen who refused to go to sea on board the ship Skiddaw, from Quebec, last fall, on the ground of that vessel's unseaworthiness, preferring to remain rather a few weeks in jail, afterwards shipped on board the ship Edna, from Montreal, and were lost, with the rest of the crew, recently on the coast of Ireland. The Skiddaw arrived home safe.

The New York Sun says: Daniel W. McFarland, who is under indictment for the murder of Albert D. Richardson, is to be tried in the Court of Oyer and Terminer in March. Judge Ingraham will preside. We have been informed that the defence will set up temporary insanity and that several eminent medical gentlemen who are well acquainted with Mr. McFarland are strongly of the opinion that when he shot Richardson he was in a condition of pronounced insanity.

The Supreme Court of Alabama has decided that there has been no property in slaves since 1863, that every judgement given by any of the Courts of Alabama from 1861 to 1865 is null and void, and that all officers of courts and the Legislature were mere usurers during that period.

Naphtha or gasoline may be separated from kerosene by placing the can or jar, cork out, in boiling water in the open air an hour or so, when the heat of the water will have dispelled the dangerous elements.

Chicago is still excited over the debut in Crosby's Opera-house, of a young lady under the stage name Kate Claxton, who is said to be the daughter of a distinguished general of the army, and the grand-daughter of one of most eminent of American public men.

NEWS ITEMS.

Logan No. 5, the desperado who was shot by Hawkshaw, a similar character, had a grand funeral in New York on Sunday. One thousand men marched in procession, headed by Alderman Crocker, of the Eighteenth ward, and other well known politicians. A long line of carriages filled with female mourners, followed. The streets through which the funeral passed were so crowded as to be almost impassable. A band some bears, with six nodding plumes, and drawn by gray horses, bore the body to Cavalry's Cemetery, where the last rites of the Roman Catholic Church were celebrated.

An extraordinary scandal agitates religious circles in New York. A prominent clergyman of that city disappeared on Saturday morning in company with a young lady one of the prettiest of his flock, and belonging to a wealthy and highly respectable family. The circumstances are such as to render it certain that a guilty intrigue exists between the parties. The reverend gentleman leaves behind a distracted wife and two children. Yesterday his pulpit was occupied by the Bishop of the Diocese, and it was not until evening that the shocking intelligence reached the ears of the congregation. The utmost astonishment and grief prevailed in the circle where the parties have heretofore been known and beloved.

A suit was commenced in the United States District Court, at St. Louis, Monday, by the Union Insurance Company, against the owners of steamer Stonewall, burned last October, for sixteen thousand dollars, the amount paid on policies on goods shipped on that boat. The plaintiff claims that the destruction of the boat was caused by the carelessness of the officers.

The art of pulling has reached its climax out in Illinois. This is the way they do it: "If you to want hear of the wonders of the hidden river, the rush of the mighty Colorado over falls the imagination fails to picture, through chasms which have rent the hearts of the mountains, and down into the inner depths of the earth, go listen to Major Powell."

"Mother," said Jimma, "Sam wants to come courting me to-night." "Well what did you tell him?" "Oh, I told him he might come. I felt anxious to see how he would act."
