In the House, day before yesterday, Mr. Schenck, from the Committee on Ways and Means, reported a joint resolution for the continuance of the income tax which, after explanation by him, was passed. It reads as follows:

Resolved, &c. That as doubts have arisen and conflicting decisions been made in different departments of the government relating to the tax on incomes, it is hereby declared to be the true intent and meaning of the acts relating to the subject that all persons are liable to payment of their proper income tax accruing, and to accrue for, and during, and up to the end of the year 1870, and that the assessment and collection of any such tax in the year 1870, and remaining unpaid on the 1st day of January, 1871, may, under the existing provisions of the law, be made in the last mentioned year.

Many people hereabout have supposed that no income tax would be collected this year. The above settles the question.

By reference to the column advertisement elsewhere it will be seen that Sherry's New York Theatre are to open here on the 28th day of January for a season of several nights. Their opening piece is entitled "Dora," and is highly spoken of by all who have witnessed it. Sherry's old-time reputation is a guarantee of crowded houses.

We notice that the Oil City Times and Venango Citizen are waging a fierce war against the Titusville Herald on the new County question. People here were generally in favor of the new county until within a short time, or when it became known that the place was to be "left out in the cold," the line having been drawn at a point near Miller Farm. Blow away, gentlemen.

There are now eleven producing wells on the Armstrong Farm, near Pleasantville and the average daily production is about 50 barrels. At one time during the Pleasantville excitement the production of this farm was over 1500 barrels per day and the number of wells in operation near 100. It is on the black oil belt.

"Wouldn't you like to be a woman when you grow up, Tom?" "No," answered the young four-year-old. "Why not?" "Because women can't turn summersaults."

The excitement in regard to the recent mysterious death of the colored girl at Oil City, still prevails. An inquest is now being held.

We learn that quite a religious interest at present prevails in the M. E. Church at this place. Meetings are held nearly every evening, the attendance being quite large.

The weather is quite moderate at present. The extremely changeable weather nowadays is beyond the comprehension of the "oldest inhabitant."

The Arnold & Phinney well, on the Malory farm, is at present yielding 60 barrels per day.

PARKER OIL FIELD.—Corbett well No. 2, on the hill west of Parker's Landing, on land of Fulerton Parker, is a new strike; it has been pumping for some days, and is throwing out a goodly amount of oil, promising to prove a good well.

Morning Star well No. 1 is located on the river below Mike's run, on land of Leonard & Parker. This well has been pumping for more than a week, and it is now yielding about twenty barrels per day.

The Pine Tree Well, on south side of Church run, below the Eagle, on the land of John Marshall, has just been sunk through the third sand, has been tubed, and is being tested with favorable indications.

The Blue Flag Well, on the north side of Church run, on land of Fulton Parker, commenced pumping this week, making a good start, promising to rank among the best wells on Church.

Well No. 3, on Mike's run, on land of the Mike's Run Oil Company, is a new strike, which makes a good start. It will not prove less than a twenty barrel well, and may reach forty barrels.

The product of the Parker oil field is estimated at 1,800 barrels per day.

On the north side of Bear Creek, in Butler county, Mr. M. S. Adams has sunk a well on the land of Mr. S. Leonard, and has what promises to prove a good well. It is said to be yielding ten barrels per day at the present time.

On the south side of Bear Creek, near the mouth, there are eight oil well rigs up, two of which are drilling and three pumping. The pumping wells have all produced a small quantity of oil; but not a sufficient quantity to pay.

The Fox Farm, in the Parker district, is making a good show: No. 1 owned by W. Robinson & Co., is pumping fifty barrels daily. No. 2 J. R. Crawford & Co., is now doing sixty barrels, and judges say at the present rate of increase, will run up to one hundred barrels, daily. No. 4, Morgan & Taylor, is rated at fifteen barrels. The well of the Clarion Borough Oil Company is producing four barrels per day. Moriarty & Wright's well is rapidly increasing, and is doing fifteen barrels per day. The Gray Eagle is now doing only ten barrels. It was a thirty-five barrel well, and went down to five, but it is again rapidly improving. Galloway & Brown, on lease No. 13, is running forty barrels per day. Herrington's well, on upper lease, No. 22, is doing six barrels.

A Yankee editor says that the girls complain that the times are so hard that the young men can't pay their addresses.

Three things that never agree—two cats over one mouse, two wives in one house, and two lovers over one young lady.

The bachelor's refrain—a lass! The maiden's refrain—ab men! Let them no longer refrain!

Miss Marshall, who has been lecturing in Memphis and other Southern cities upon Woman's Rights, Temperance, etc., was arrested in Brownsville, Tennessee, last week, and sent to jail, for being a "dead beat" generally.

STORAGE OF PETROLEUM AT LONDON.—A Cable Dispatch says: In consequence of the disastrous effects of a recent petroleum fire in London, merchants are devising means for the safe storage of coal oils, and various plans are on foot for improved warehouses.

The trial of McFarland for the shooting of Albert D. Richardson, will probably take place in New York some time in February. The New York Commercial Advertiser says that "the friends of Richardson, although they have taken little or no part in the discussion elicited by the various phases of the affair, have a mass of important testimony, which they believe will not only prove the falsity of much of the published habeas corpus testimony, but occasion a reaction in public sentiment.

Some San Francisco newsboys sell other articles than newspapers, and astonish Eastern visitors by crying: "Here's yer Evening Tribune and cough candy; cures coughs, colds and sore throat,—latest 'count of the earthquake—only five cents a copy or six sticks for a quarter."

Beecher is magnanimous. He will take \$20,000 a year instead of \$12,000 as his salary. True, his congregation has made him no direct offer of that character, but he "saw it in the newspapers," and therefore, to prevent any mistake or retroaction through false delicacy on the part of his flock, he announced from his pulpit that he would pocket the filthy lucre when tendered. Has Beecher lately taken to reading newspapers? During the McFarland-Richardson excitement he professed to be a poor reader of current news. It seems he has a keen eye for a small paragraph concerning salaries in Plymouth Church.

Robert C. Winthrop will deliver an address at the funeral of Gov. Peabody.
