Drilling Jars

We would respectfully announce to our customers and the public generally that we keep our factory on hand

Cast Steel Drilling Jars!
Which for Strength and Durability exceed any steel lined jar heretofore in use.

The Advantages we Claim
over Lined Jars are that, being ALL STEEL, they are stronger and more composed entirely of steel than those having a steel surface to the rock, they are resistant from wear on the outside, and will keep their shape longer.

We Warrant Them to Drill Fifteen Hundred Feet.
We also keep on hand

Cast Iron Working Barrels.
Fisher, Norris & Co.
PETROLEUM CENTRE.
Nov. 12th, 1899—17

TO THE WORKING CLASS—We are now prepared to furnish all classes with complete equipment at home, the whole of the time or for the day or week. Business may be done profitably by the use of our machinery, and we are prepared to supply the same to the best advantage. Boys and girls can easily be taught to use them. The machinery we make this apparatus is of the best quality, and will last for years. To such as are unable to write, full particulars, a valuable pamphlet will be sent on application, and copy of the *People's Literary Companion*—most interesting and profitable news—sent free of charge. Write to our office, 100 Main St., Petroleum Centre, Pa., or to our address, E. C. A. R. R. & C. A. Agents, Main St., Oil City, Pa.
