Drilling Jars

We would respectfully announce to our customers and the public generally that we keep on hand

Cast Steel Drilling Jars!

Which for Strength and Durability exceed any Steel Drilling Jar heretofore in use.

The Advantages we Claim

over Iron Jars are that, being ALL STEEL, they are stronger than Jars composed partly of iron that presenting a Steel surface to the rock, they are prevented from wear on the outside, and will keep their shape longer.

We Warrant Them to Drill Fifteen Hundred Feet.

We also keep on hand

Cast Iron Working Barrels.
