Drilling Jars.
We would respectfully announce to our custo
mers and the public generally that we keep con
stantly on hand
Cast Steel Drilling Jars!
Which for strength and durability excel any Steel
Kind that has been used.
The Advantages we Claim
over Lead Jars are that, being ALL STEEL, they
are stronger than jars composed partly of iron
that presenting a level surface to the rock, they do
not protrude from wear on the outside, and will keep
their shape longer.

We warrant them to drill
Fifteen Hundred Feet.
We also keep on hand
Cast Iron Working Barrels.
