We are in receipt of the first number of the Weekly Register, a new paper published at Oil City, by Walter R. Johns, the well-known author of "Petrolia, a History of the Oil Region." The paper is independent of politics, and devoted to the interests of Oil City and the oil region. Mr. Johns has long been identified with the publishing business of that place, and is every way capable of getting out a good paper of which the first number of the Register is a fair specimen. We have no doubt but that he will make a success of the new enterprise.—The citizens of that place should tender him a liberal support.

The Corry Blade comes out with a long article on "Salvation." It is a good thing to write about, but it would take a good deal of salvation to help or convert that concern, unless there is a change for the better. It is painful to contemplate, but nevertheless true.

We learn that developing is to be pushed ahead at a lively rate the coming season on the lower Cherry Run territory, above Rousseville. On the Smith farm six new wells are to be commenced at once, and other farms in the same vicinity are to be thoroughly developed.

**NEW MEAT MARKET.**—Uncle John Nolan, well and favorably known in this portion of the oil region, has established a new meat market at Rod Hot. He proposes to keep constantly on hand fresh and salt meats of all kinds, butter, eggs, &c. He is a square man, and the people of that vicinity will find it to their advantage to deal with him.

Since the striking of the new well on the Jas. S. McCray farm, there has been a lively demand for leases in that vicinity, and many have been taken up. There is a strong probability that active developments will be witnessed on that and adjoining farms as soon as good weather sets in.

By reference to the advertisement to be found elsewhere, it will be seen that N. B. Parker proposes not to "L. n. any Fishing Tools," but will rent them to responsible parties at reasonable rates.

Received a paper from Oil City.—Somewhat puzzled to define it, but find that there was a break down at Plummer. Hope that I am not mistaken, but if such is the case beg an apology.

A company under the title of the "Roaring Run Coal Company" has been organized by capitalists of Clearfield. The company, with a capital of \$100,000, have secured four hundred acres of land near the railroad, about two and a half miles from that place upon which they are now operating.

Patrick Kelley, of Erie, found a clothes line and took it home; when, he got there he was astonished to find a large and select assortment of linen attached to it. And then its prejudiced owner came down on the innocent Patrick and had him juggled. America is fast getting to be no refuge for the oppressed Irishman.

The Scranton (Penn.) Republican says that Assistant Surgeon Edward Frothingham, supposed to be lost in the Onedia, is a brother of Augustus Frothingham, of that place, and was for some time a resident there. He was about 25 years of age, and a young man of fine attainments.

Dr. Bullison, of Paris, is said to have saved the lives of eighty persons during his professional practice, who had been bitten by mad animals, simply by the use of the vapor bath, for seven consecutive days, heated to a temperature of from 130 to 140 degrees Fahrenheit.

By hard labor an industrious resident of Alexandria, Virginia, had earned enough to enable him to lay aside \$3,400. A designing woman recently ascertained the fact married him, and in a short time decamped taking the \$3,400 with her, and leaving him wifeless and penniless. Have men no rights which women are bound to respect?

We are constantly hearing new names for the villainous compound at present sold for whisky. The last comes from Iuka, Miss., and hits the nail on the head. "Ripgizzard" is the word.

Among brakeman on the Erie road are said to be several talented gentlemen, including an accomplished physician who left his home owing to domestic difficulties; also a graduate of Princeton College, and a victim of Wall street speculation.

Two farmers in Kansas recently had a law suit about seven pounds of butter.—When the jury retired they took with them the butter, procured some crackers, ate them together, and returned a verdict of "no cause of action."

New York claims to have the fastest compositor in the world. There is one in Detroit that squandered \$500 in one week, and we have all along calculated that he was as fast as they made 'em. So says a Detroit paper.
