Gold closed to-day at 111 1/2.

From the report of the Petroleum Producers' Association for the month of February, which appeared in the Titusville Herald this morning, we learn that the Number of barrels of oil on hand at the wells at the close of the month was 124,734; Number of barrels of oil delivered from wells during the month, 312,910; Aggregate, 437,644; Deduct number of barrels of oil on hand at the close of last month, 109,653; Balance showing the production for the month, 327,991; Average per day for the month containing 28 days, 11,714; Number of wells producing during the month, 2,000; Average daily production per well during the month, 5-8; Number of wells being drilled, 433; Number of new wells commenced during the month, 132; Number of wells completed during the month, 133; Number of wells abandoned during the month, 74; Number of abandoned wells resumed during the month, 10; Capacity of iron tanks in barrels, 1,312,897; Number of barrels of oil stored in iron tanks, 201,425; Barrels of iron tackage empty, 1,111,472. The report is very full and complete, more so than either of the other reports published by the Association.

There is to be a grand sparring exhibition at Ahin's Hall, this evening. Several noted sparrers will be present. Lovers of the manly art should attend. The entertainment will conclude with a social hop.

Lovers of the drama should bear in mind that the talented and brilliant Wallace Sisters appear at Sobel's Opera House, this evening, in the mirth-provoking burlesque of "Clorinda, or the Girl of the Period." They will be supported by Mr. S. B. Villa and the New York Burlesque Company of twenty-five artists. This company is composed of some of the best artists in the United States, and will no doubt draw crowded houses during their stay here. See bills of the day.

A new bank is to be established in Titusville. It will be known as The Producers' and Manufacturers' Bank, and will have a capital stock of \$100,000.

According to the producers' report the increase in the Rouseville and Independent districts has been greater than in any other in the region.

The Fox well is being tubed to-day preparatory to testing.

Our townsmen, Thomas Frothingham, is putting down two wells on Calaboose Run.

Preparations to test the old oil well at Union, Erie county, are going forward. Should the well prove a success, Union, will arise as from the dead.

A vein of iron ore has been discovered on the farm of Henry S. Miller, in Newberry township, York county, which is four feet thick, and underlain by a bed of rotten stone five feet in thickness.

Omaha is a corruption of the Indian Eromaha, "above the river," (the Platte). The first syllable was dropped so that no one should Er in the name.

Charlotte Thompson, now Mr. Rogers, has settled down in Alabama.

OIL BATHS.—It is worth knowing that there are occasions on which a bath of oil may be of valuable use; for it is the best of all remedies for serious burns. A German girl ballet, whose dress had caught fire, and who had been horribly burned in consequence, was put into a bath full of oil by the chief physician of the Leipsic Hospital. She was suffering atrocious agonies, but the oil caused her pain to cease almost immediately. She remained in the bath nine days and nights, the oil being renewed five times during that period; and her burns were so far healed that she could be taken out without pain or danger. Three weeks after, she had completely recovered. This is an admirable form of cure, because it suppresses the intolerable tortures which do more to kill the victims by fire than the actual gravity of the wounds. Unfortunately, like most good things in life, it is beyond the reach of small purses.

A writer in the Baltimore American, who has been there, says that "the Monarch is a great ship in her comfort and luxuries.—Her officers have their quarters in rooms such as are only found in the houses of the more opulent denizens of the shore. They dine on oiled walnut tables, and sleep in state on patent spring mattresses. For genteel living, for entertaining visitors, and for drinking her gracious Majesty's health, her cabins cannot be surpassed."

It is advertised in Canadian journals that certain banks will receive American silver coin for exportation on government account at five per cent. discount until one million of dollars has been exported, when it will continue to be received at five and one-half per cent.

An a depth of 808 yards the temperature of the coal at the Rose Bridge Colliery, near Wigan, the deepest mine in Britain is ninety-three degrees and a half. Below the old red sandstone geologists maintain that the temperature increases in the ratio of one degree to every fifty-five feet. They are evidently getting near a very hot place in that mine. If they dig much deeper safety lamps will be of mighty little use to save them from roasting. They had better leave that mine, and not hurry on their fate in such an unseemly manner.

A Bratleboro letter writer says that as one result of the recent female suffrage convention in that place, a small boy was found in tears and trouble. "What's the matter?" asked a sympathizing and curious passer-by. Rubbing his eyes vigorously with both fists, after the manner of small boys, he blubbered out: "My mother's gone to the woman's town meeting, and didn't leave out nothing to eat."

A Maine deputy sheriff, suddenly called upon to lead in prayer at a conference meeting, astonished his hearers by the following conclusion: "May Thy wisdom lead us, Thy mercy guide us, and finally conduct us to Thy last and usual place of abode."

It is possible that the City of Boston has been run down by some British mail steamer, or, whose captain forgot to mention it on his arrival in port. It might be well to ask some of the British captains if they did not feel a slight jar at any time during their passage.

Henry Bessemer, the inventor of the steel process, has discovered and patented a plan by which sea sickness may be avoided in future. "By the application of the principle upon which a ship's compass are suspended, he provides a room which will be perfectly free from the rolling or pitching motion of the vessel. A working model, which has been already constructed, shows the simplicity and efficacy of the plan. The suspended chamber in this model is hemispherical in shape, and can be made with a glass roof."

The new territory west of Tryumph City is attracting great attention, and the excitement is on the increase. The well of Mr. Clapp, on the Clapp farm, formerly Henderson farm, is keeping up her production steadily. Several important changes in ownership have lately taken place. Dr. Shamburgh has bought of Mr. Michael McGrew 20 acres at \$200 per acre, and leased of same party 30 acres additional.—The Doctor also bought of the Irvine Brothers 20 acres contiguous. The Sutton place was sold to Tillman and others for \$2,000—and we are since informed one half of it has changed hands at \$8,000.—Tidoutte Journal.

Two young ladies in a certain house in town the other night were heard singing as follows: "Oh for a man! Oh for a man! Oh for a man—son in the sky" Before they could get any further, two young bloods outside responded: "Oh for a gal! Oh for a gal! Oh for a gal—lon of old rye!"

Charles Egan has bequeathed £200,000 to the Dublin charities.

NEWS ITEMS.

Light Timber—Sun-beams. Jannushek will play in Hamburg and Berlin in April and May.

The Keopapitchin is the name of a comic paper just started in Utah.

The New York papers say there is reason to believe that the unfortunate gentleman who destroyed himself in a Twenty-seventh street assignation house last Friday night is no other than Rev. J. G. Harding late of Weston-Super-Mare, England.

The Winona Republican says the quantity of wheat now in store in the elevators and warehouses on the line of the Winona and St. Peter railroad, including the city of Winona, is about 500,000 bushels. This will probably be increased by upwards of 100,000 bushels by the opening of river navigation.

Walker, the author of the battle paintings of Chapultepec and Gettysburg, has received an order from Major Gen. Hocker to paint the "Battle Above the Clouds," at Lookout Mountain, the price to be \$16,000. He will first visit Europe to study the battle pieces of the most celebrated masters in this department.

NEVER DESPAIR.—A striking illustration of the truth of this saying has just been cited in the case of the unexpected arrival at Lisbon, of the screw steamer Investigator after she had been given up as lost, for over a month. She had been spoken in the Straits of Magellan on November 19th. For 123 days nothing had been heard of her, and 60 per cent. premium of insurance had been refused.

The agent for a patent coffin says in his circular: "Undertakers who have used it pronounce it a perfect success, and we ask you to try it, free of charge, and judge for yourself."
