Would do well to compare the quality and will
find it to their advantage to deal with me.

How to be Misguided.—Sit by the win-
dow and look over to your neighbor's ex-
cellent mansion, which he has recently
built and paid for, and fitted out. "Oh!
that I was a rich man!"

Get angry with your neighbor, and think
you have not a friend in the world. Shed
a tear or two, and take a walk in the birch-
ground, continually saying to yourself,
"When shall I be buried here?"

Sign a note for a friend, and never for-
get your kindness, and every hour in the
day whisper to yourself, "I wonder if he
will pay that note."

Think everybody means to cheat you.—
Carefully examine every bill you take, and
doubt its being genuine till you have put
the owner to a great deal of trouble. Put
confidence in nobody, and believe every
man you trade with to be a rogue.

Never accommodate, if you can possi-
bly help it. Never visit the sick, or the
afflicted, and never give a farthing to assist
the poor.

Follow these recipes strictly, and you
will be miserable to your heart's content—
I will say so speak—sick at heart, and at
variance with the world. Nothing will
cheer or encourage you, nothing throw a
gleam of sunshine or a ray of warmth into
your heart.

The Warren Ledger says it has been shown
specimens of Cumberland coal, large quantities
of which are found on the line of the pro-
posed Shenandoah Railroad, the vein from
which these were taken is four feet two inches
thick, and the quality is of the very best.
There is said to be a large abundance
along the route. The ore yields eighty per
cent according to actual demonstration—
Shenandoah is a station on the Philadelphia
and Erie road, and the mines spoken of will
find the nearest and best outlet to the lakes
at Erie.

ployment at home, the whole of the time or for
the summer months. This is a new and profitable
business, and we are ready to receive from 100 to 250
persons, and a professional man is devoted
to the instruction of the pupils. There are girls
and boys of all ages, and all are to be
taught to read, write, and do the business
work of the world. For further particulars
call on us, or write to us, and we will send
you a copy of our prospectus, and a note of
the terms of our course. The course is
of six months, and we guarantee to give
each pupil a good education, and a profitable

Drilling Jars.
We would respectfully announce to our custo-
mers and the public generally that we keep on
hand

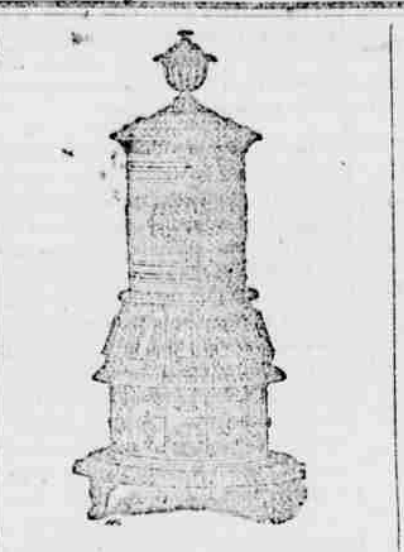

Cast Steel Drilling Jars!
Which for strength and durability exceed any Steel-
drill Jar heretofore in use.

The Advantages we Claim
over other Jars are that, being ALL STEEL, they
are stronger than Jars composed partly of iron
and partly of steel, and they are not liable to
be injured by rust or the outside, and will keep
their shape longer.

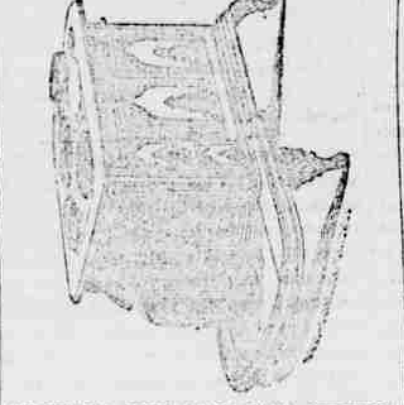

We Want Them to Drill
Fifteen Hundred Feet.
We also keep on hand
Cast Iron Working Barrels.
